

§ Neopost USA

CATEGORY: Document Software

PRODUCT: OMS-200, OMS-500 and GMC Inspire Software

COMPANY: Neopost USA, 478 Wheelers Farms Rd., Milford, CT 06461. Phone: 800-NEOPOST (636-7678).

NEOPOST OUTPUT MANAGEMENT: The Output Management portfolio of software offered by Neopost is smart software that automates and enhances the preparation, processing, output and delivery of business-critical communications. OMS solutions range from simple-to-use standalone barcoding software up to fully integrated mail piece production automation, postal optimization, document formatting, and document creation software solutions.

OMS-200: Provides enhanced automation, integrity and mail piece personalization for production runs by adding barcodes to automate folding inserting processes and ensure the mail piece reaches the intended recipient.

OMS-500: OMS-500 is a browser-based output management solution that allows users to manage important customer communications easily and securely in different media. This solution operates on the award-winning GMC Software platform which provides the highest level of performance and scalability. OMS-500 automates and centralizes the document preparation process which helps users increase operational efficiencies and ensure that content is sent to the right person, at the right time through the customer's preferred channel. OMS-500 also allows users to add specific marketing messages and merge multiple documents into a single envelope, allowing for increased marketing opportunities and savings on printing and postal costs. It integrates with Satori Software to provide presort capabilities and ensures customer contact data integrity. In addition, OMS-500 integrates with ConnectSuite e-Certify and e-Delivery solutions. These unique and powerful Web-based plug-ins enable businesses to centralize and track the processing of certified mail and allow customers to easily evolve from paper-based communications to digital delivery, including the convenience of paying invoices electronically.

GMC INSPIRE: GMC Inspire is an enterprise communication platform enabling your business to deliver relevant personalized messages, at the right time through the preferred channel. It includes a high performance document composition engine on a flexible platform that integrates with almost any data source. GMC Inspire's efficient template design is optimized for multi-channel communication and boasts robust reporting capabilities to track production in real time. GMC Inspire will help decrease costs, increase operational efficiencies and improve customer satisfaction.

See Neopost's listing in the Database/Postal Software section.

CATEGORY: Document Software

PRODUCT: Relay® Hub

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

RELAY® HUB: The Relay Hub, from the Pitney Bowes Commerce Cloud, lets you enhance your customer communications to reduce mailing costs, improve customer engagement and increase paperless adop-

tion. The Relay Hub is a SaaS solution that leverages our enterprise software with the scalability of AWS to deliver powerful digital output management. Improve physical mail efficiencies by reducing undeliverable mail costs, streamlining and right-sizing printing and mailing hardware, and adding barcodes for precise automated folding and inserting with the Relay inserter series. Improve engagement by modernizing your legacy documents with color and updated branding to make communications easier to understand and faster to respond to. Increase paperless by easily transitioning printed documents to digital sending, like email, while keeping document design intact for a seamless customer experience across channels.

PRODUCT: Riso ComColor® Series High Speed Printers

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

RISO COMCOLOR® SERIES HIGH SPEED PRINTERS: Increase the productivity and efficiency of your print operation with heatless, high-speed inkjet printing. The ComColor printers combine ultra-fast printing technology with cost-effective color printing. Inkjet printing technology is ideal in print-to-mail environments because pages are printed without static or paper curl. Finished documents can then be immediately processed in folding/inserting equipment without wasting time waiting for pages to cool. Specially formulated oil-based ink prints dry and is fade- and water-resistant for reliable high-quality output. Since it uses requires no heat, inkjet printing uses less energy and keeps your printing equipment running smoothly even for high-volume runs. Ultra-fast print speeds up to 120 pages per minute, without slowing for duplex printing, further boosts productivity. The ComColor's Inkjet technology also allows you to add the engaging color that your customers want for a fraction of the cost of color toner multi-function devices. With the ComColor printers, you can make the switch from black and white to color without sacrificing your budget or productivity, since it prints color at fully rated speeds. You can even add optional accessories to add more flexibility to your finishing needs. Increase productivity and efficiency with the Riso ComColor inkjet printing technology from Pitney Bowes.
