

Barcoding/Sorting Systems

Pitney Bowes EZ-Flats Pro

software that facilitates communication, exchange and seamlessly interfaces with virtually any backend system based on client's business rules and operational processing needs.

EZ-FLATS PRO: The Pitney Bowes EZ-Flats Pro sorting system helps identify the largest postal discounts in a single-pass offering a quick return on investment. EZ-Flats Pro is a low-cost entry for a new level of postal discounts and it allows customers to expedite delivery to the USPS without complex logistics or scheduling rules. At speeds up to 2000 pieces per hour, EZ-Flats Pro utilizes a unique software package that scans and directs small parcels for maximum postal discount in a single process. EZ-Flats Pro ensures an intuitive process for complex postal rules and on average, first time operators are up to speed and running the system within 15 minutes. EZ-Flats Pro captures weight, barcodes and OCR while deciding destination, postage paid and tracking numbers.

Pitney Bowes OneSort Pro

The OneSort Pro sorter provides a powerful, yet simple solution for dimensioning, data capture and parcel management. This highly integrated sorter provides simultaneous dimensioning, weighing, barcode reading, OCR, image capture and label creation. It can instantly process instructions for labeling, routing, postal documentation, client billing and custom reporting. The OneSort Pro is powered by Business Logic Processing (BLP) software that facilitates communication, exchange and seamlessly interfaces with virtually any backend system based on client's business rules and operational processing needs.

Certified Mailing Systems

EI's ConfirmDelivery

§ Engineering Innovation Inc.

CATEGORY: Certified/Accountable Mailing Systems

PRODUCT: ConfirmDelivery.com

COMPANY: ConfirmDelivery.com by Engineering Innovation Inc. (Eii), 3601 Sagamore Parkway N, Suite Eii, Lafayette, IN 47904. E-Mail: sales@confirmdelivery.com. Phone: 888-960-6245

CONFIRM DELIVERY DESCRIPTION: When you need to track your mail – either by proof of delivery or by signature – ConfirmDelivery by Engineering Innovation offers considerable savings of both time and money. Whether you are generating a small accountable mailing or producing thousands of mail pieces, use the ConfirmDelivery program to expedite both lightweight Accountable Mail (typically Certified Mail™ but also First Class Package Services) and any Priority Mail item that requires tracking. This innovative web-based service provides impressive postage savings over traditional Certified Mail™ and even more savings over express carrier services such as Fed Ex® or UPS™. ConfirmDelivery's online application streamlines the entire mailing process, enabling reduced overhead and enhanced tracking capabilities on all Accountable mail. There are no forms, no annual subscription fees, no binding long-term contracts to sign, and no hardware or software to purchase.

CONFIRM DELIVERY FEATURES: With ConfirmDelivery, mailers process all of their Accountable mail from the desktop. All hand addressing of postal forms is eliminated as the entire front landscape of the Accountable mail piece is generated online with Address Standardization and zip+4 assignment. No more time-consuming green cards to fill out and no more waiting for days or weeks to get them returned. Real-time delivery event information is also accessed online. Tracking features include complete report generation of all transactions by mailing date and delivery date, with a delivery status for any non-deliverable or delayed deliveries. The auto-signature feature allows printer output of each signature on Postal Service letterhead at a predetermined time daily. Another valuable feature offers delivery statistics which plot problem delivery areas. For large volume applications or for integration into your company database use the ConfirmDelivery Database Application.

CONFIRMDELIVERY DATABASE APPLICATION: This provides direct benefit to data managers by enabling print-to-mail for thousands of certified/accountable mail pieces (examples: class action lawsuits or county government notices for eminent domain or property assessments). The ConfirmDelivery database application can even manipulate your PDF documents to maintain compatibility with all your in-house applications.
