

Document Printing Systems

each application can work independently or seamlessly integrate with each other for maximum flexibility. The Quadient Impress Platform also integrates with unique and powerful Web-based plug-ins that enable businesses to save postage with presort capabilities, ensure the integrity of their customer contact data, centralize and track the processing of Certified Mail, manage their recipients' delivery preference and more.

YayPay by Quadient: A smart accounts receivables platform that helps B2B companies improve their customer experience via their credit and collection communications processes. YayPay SaaS platform automates routine invoice reminders, credit and cash application tasks, and gives finance teams visibility and control by connecting the AR data from ERP, CRM, email and credit in one central system. Instead of sticky notes, one-off emails and spreadsheets, YayPay reduces the highly manual process of managing the AR process with simple workflows. YayPay improves cash flow predictability and facilitates collection of payments via a self-serve portal for electronic invoice review and payments.

INSPIRE: Inspire is an enterprise communication platform enabling your business to deliver relevant personalized messages, at the right time through the preferred channel. It includes a high performance document composition engine on a flexible platform that integrates with almost any data source. Inspire's efficient template design is optimized for multi-channel communication and boasts robust reporting capabilities to track production in real time.

PRODUCT: Document Printing Systems

COMPANY: Kirk-Rudy, Inc., 125 Lorraine Parkway, Woodstock, GA 30188. Contact: info@kirkcrudy.com. Phone: 770-427-4203.

KR FIREJET 4C: Kirk-Rudy's most recent innovation is an all-in-one printing system that combines the heavy-duty transport they are famous

Kirk-Rudy FireJet 4C

for, along with the quality and reliability from Memjet and their new DuraFlex technology. This new breed of inkjet printer offers a profitable alternative to the smaller desktop, toner-based digital color printers on the market today, as well as a low cost alternative to larger production press systems. With its 12.75" printhead, it can produce high quality 1600 x1600 dpi color images and reach speeds of 150 ft/min. The FireJet 4C uses pigment aqueous inks and has a long printhead life.

Kirk-Rudy's powerful XColor RIP and color management software make the FireJet and all-in-one Digital Color Press capable of producing direct mail, variable data forms and high quality color envelopes.

KRC500 KOLORJET: The KRC500 KolorJet is Kirk-Rudy's latest innovation in high-speed color printing. Easily add color images, graphics, and variable data to envelopes and documents for more effective communication. The KRC500 KolorJet printer offers excellent color print quality at high speeds. Increase promotional effectiveness and response rates with high-speed, high-quality variable color added

to envelopes and web-printed pages. Produce color images, graphics, and variable data 600 dpi at 500 fpm with four 4.25" printheads. Offering a low total cost of ownership, the KRC500 KolorJet Print Module is an affordable option for adding process color versus stand-alone equipment.

PRODUCT: Riso ComColor® Series High Speed Printers

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

Riso ComColor® Series Printers

RISO COMCOLOR® SERIES HIGH SPEED PRINTERS: Increase the productivity and efficiency of your print operation with heatless, high-speed inkjet printing. The ComColor printers combine ultra-fast printing technology with cost-effective color printing. Inkjet printing technology is ideal in print-to-mail environments because pages are printed without static or paper curl. Finished documents can then be immediately processed in folding/inserting equipment without wasting time waiting for pages to cool. Specially formulated ink prints dry and is fade- and water-resistant for reliable high-quality output. Since it uses requires no heat, inkjet printing uses less energy and keeps your printing equipment running smoothly even for high-volume runs. Ultra-fast print speeds up to 160 pages per minute, without slowing for duplex printing, further boosts productivity. The ComColor's Inkjet technology also allows you to add the engaging color that your customers want for a fraction of the cost of color toner multi-function devices. With the ComColor printers, you can make the switch from black and white to color without sacrificing your budget or productivity, since it prints color at fully rated speeds. You can even add optional accessories to add more flexibility to your finishing needs. Increase productivity and efficiency with the Riso ComColor inkjet printing technology from Pitney Bowes.
