

EP's ConfirmDelivery

§ Engineering Innovation Inc.

CATEGORY: Certified/Accountable Mailing Systems

PRODUCT: ConfirmDelivery.com

COMPANY: ConfirmDelivery.com by Engineering Innovation Inc. (Eii), 3601 Sagamore Parkway N, Suite Eii, Lafayette, IN 47904. E-Mail: sales@confirmdelivery.com. Phone: 888-960-6245

CONFIRM DELIVERY DESCRIPTION: When you need to track your mail – either by proof of delivery or by signature – ConfirmDelivery by Engineering Innovation offers considerable savings of both time and money. Whether you are generating a small accountable mailing or thousands of mail pieces, use the ConfirmDelivery program to expedite both First Class Mail and any Priority Mail item that requires tracking. This innovative web-based service provides postage savings over both traditional Certified Mail™ and express carrier services such as Fed Ex® or UPS™. ConfirmDelivery's online application streamlines the entire mailing process, reducing overhead and enhanced tracking capabilities on all Accountable mail. There are no forms, no annual subscription fees, no binding long-term contracts to sign, and no hardware or software to purchase.

CONFIRM DELIVERY FEATURES: Desktop processing of all Accountable mail; Online generation of mail piece address and barcode eliminates the hand addressing of postal forms; Elimination of paper-based Return Receipts ("Green Cards") through online access to real-time delivery event information; Complete report generation of all transactions by mailing date and delivery date with a delivery status; An auto-signature feature allowing printer output of each signature on Postal Service letterhead at a preset daily time; Delivery statistics which plot problem delivery areas; The Windows Application enables print-to-mail for thousands of certified/accountable mail pieces such as class action lawsuits or county government notices; Documentation merging maintains compatibility with all your in-house applications.

Database/Postal Software

§ Melissa (formerly Melissa Data Corp.)

CATEGORY: Database/Postal Software

PRODUCT: MAILERS+4®, Mailers Online, Suppression Services, FTP Automation for NCOALink®, Mailing Lists, Move Update Service, Canadian National Change of Address Processing (SERP), MatchUp®, Global Express Entry®, Global Address Verification, Personator® (fraud detection and ID verification), and CASS™ processing.

COMPANY: Melissa, 22382 Avenida Empesa, Rancho Santa Margarita, CA 92688-2112. Tele: 1-800-MELISSA

LIST PROCESSING: Canada Post NCOA® and USPS® NCOALink® Move Update change-of-address processing to reduce undeliverable-as-addressed mail, and qualify for postal discounts. Secure, automated 24/7 FTP submission offers no minimum charges per file or set up fees – and turnaround for most jobs in 20 minutes or less. Low price guaranteed – we will beat any competitor's price! Suppression services include Deceased, Do-Not Mail, and Inmate. Email and Phone Append services available.

MAILING LISTS: Instant access to qualified sales leads via saturation, new mover, business and property owner mailings lists. Melissa also offers specialty mailing lists that target in-demand prospects like medical professionals, registered voters, recent graduates, and automobile owners. Mailing lists are regularly updated and processed through USPS® CASS™ certified software for guaranteed delivery. For high-volume list buyers, Melissa offers its LeadGen APIs which allow users to easily get counts and pull lists online 24/7. It easily integrates into custom applications and available lists include Consumer, Business, Saturation, and Property.

MAILING SOLUTIONS:

MAILERS ONLINE: Mail prep in the Cloud – what could be better? Mailers Online is the easiest solution to get your mail prepped and out the door. No software to install or update. No long-term contracts. Pricing per job or subscription. Mailers Online presorts your mailing for either First-Class™, Marketing Mail™ (Standard Mail®), Nonprofit, Destination Discounts or eLot Enhanced Carrier Route basic rates. Mailers Online is USPS® CASS™ Certified to check and standardize addresses for deliverability and meet the USPS Move-update requirement with NCOALink® processing. Check mailing lists for unwanted duplicate records and generate Full-service Mail.dat files and reports. Increase mail deliverability, navigate complex postal regulations with ease, and connect with customers on the move. Mailers Online – the future of mailing software with the convenience of the Cloud!

MAILERS+4: The affordable, easy-to-use postal automation and bulk mail software meets the budgets and direct-mail needs of any size mailer. This desktop program delivers the tools you need to save up to 65% in postage and printing costs and includes palletization options for First-Class and Standard Mail. A subscription costs as little as \$80 per month with no long-term commitments.

MAILERS+4 FEATURES:

CASS™ CERTIFIED PROCESSING: Verify, correct and standardize U.S. addresses to meet all USPS requirements for discounted mailings. Monthly updates to USPS ZIP + 4/DPV/LACSLink data are available at no additional charge.

PAVE®-GOLD CERTIFIED PRESORTING: Presort Letters, Flats, and Postcards for First-Class Mail®, USPS Marketing Mail (Standard Mail®), Periodicals, Profit, Nonprofit, Destination Discounts (NDC/SCF/DDU), and eLOT® Enhanced Carrier Route Basic rates.
