

# Vote-By-Mail Ballot Sorters

*Fluence Summit Vote-By-Mail Sorter*

## § Fluence Automation

**CATEGORY:** Vote-By-Mail Ballot Sorters

**PRODUCT:** Fluence Summit Vote-By-Mail Sorter

**COMPANY:** Fluence Automation, 3323 N Kennicott Ave., Arlington Heights, IL 60004. Email: [info@fluencemail.com](mailto:info@fluencemail.com). Phone: 888-832-4902.

**SUMMIT VOTE-BY-MAIL SORTER:** The new Summit small footprint vote-by-mail sorter was created with smaller counties in mind — a portable, all-in-one system designed to fit in small spaces while still offering amazing automation capabilities that save you time and money. Gone are the days when a county might process only a handful of mail-in ballots. Even during small local elections, more and more people are turning to voting by mail. Larger and more affluent counties have been able to automate the ballot handling process with large sorting and imaging systems, but that technology has often been impractical or out of reach for counties that have smaller offices, smaller budgets, and don't process tens of thousands of ballots each election cycle. Now, that level of automation is available to such counties.

**FEATURES:** The new Summit compact vote by mail sorter from Fluence Automation offers the same level of ballot processing automation in a compact, portable, all-in-one system that doesn't require a dedicated installation space and can be rolled out when you need it and tucked away when you don't. It's perfect for offices with limited space and limited budgets who still need ballot handling automation a couple times a year. Features include: 1) Automate signature verification; 2) Verify envelopes and ballots; 3) Digitize envelopes and signatures; 4) Capture multiple data points for audit tracking; 5) Automate inline envelope opening and privacy tab removal; 6) Compact footprint with built-in casters for easy portability with our new Summit VBM sorter; 7) Work seamlessly with your EMS and automate the data transfer.

**CONTACT:** To learn more about Summit or any of Fluence Automation's VBM solutions, call toll-free at (888) 832-4902 or visit us at [votemail.com](http://votemail.com).

*Tritek 'Correct Elect' Vote-By-Mail Equipment*

## § Tritek Technologies, Inc.

**CATEGORY:** Vote-By-Mail Ballot Sorters

**PRODUCT:** Tritek 'Correct Elect' Vote-By-Mail Equipment

**COMPANY:** Tritek Technologies, Inc., 1-B Medori Boulevard, Wilmington, DE 19801. Contact: Sales Email: [info@tritektech.com](mailto:info@tritektech.com) Phone: 302-239-1638.

**TRITEK 'CORRECT ELECT' VOTE-BY-MAIL EQUIPMENT:** Your custom solution for processing Vote-by-Mail ballots. Tritek Correct Elect systems are available in several configurations offering unlimited features and applications for your ballot processing. 'Correct Elect' sorters image the entire ballot envelope, regardless of size, at processing speeds of up to 30,000 per hour.

Tritek has field-proven, patented Vote-By-Mail technology at work in numerous counties. We custom design and build Vote-By-Mail solutions that will fit inside any sized office and can process small or large volumes of all types of ballot designs. Tritek holds the exclusive patent on ballot method and apparatus to provide full audit trail, ballot process management and status reporting. Scans can be archived in color, grayscale or black and white. Accurate signature verification reduces labor costs of manual or semi-automatic validation and improves regulatory and security compliance. Voters' signatures are detected with barcodes and are verified against a data-base of registered voters. Portable and desktop systems are available in addition to equipment that includes any desired number of sort bins.

**TRITEK'S VOTE-BY-MAIL PROCESSING SYSTEMS FEATURES:** 1) Automatic feeder for ballot envelopes; 2) Images each ballot; 3) Simplex or duplex imaging; 4) Digitally or physically time and date stamps on each ballot envelope; 5) Inline prints any information on each ballot envelope; 6) Stores image of ballot envelope; 7) Reads barcodes and metadata; 8) Thickness detection checks for ballot in envelope; 9) Signature verification; 10) Inline ballot opener; 11) Sorts ballots by precincts or other required process groups; 12) Select your quantity of sort bins and configuration; 13) Tray tag label printing; 14) Reporting software provides number of ballots processed, and the bin designation for voter ballot accountability; 15) Ballot tracking; 16) Provides full audit trail

**CONTACT:** To learn more about Tritek call 302-239-1638 or visit [www.tritektech.com](http://www.tritektech.com) or email [info@tritektech.com](mailto:info@tritektech.com).
