

# Incoming Mail Sorters

***Tritek Compact Sorting System***

a record is created and stored to a file. These records can then be searched or emailed whenever required. The mail piece is duplex scanned front and back side as well as documents.

**COMPACT ELITE:** The Compact Elite is designed for email processing and imaging. The scan area enables complete front and back side imaging.

***Tritek Compact Elite Sorter***

Management Software. The Compact Series can be fitted with an ink jet printer or any number of Tritek sort bins or optional features. The standard machine has two sort bins for sorting processed items or rejected pieces.

**DIGITAL EMAIL DELIVERY:** An ideal solution for when you are out of the office and need to retrieve your mail. The Tritek Digital Email System is designed to deliver email notification of inbound mail to its recipients, as it is received each day, for internal company-mail distribution. You can also use the Tritek Digital Email System to deliver by email scanned images of contents of any mail piece.

**DIGITAL EMAIL DELIVERY FEATURES:** The Tritek Digital Email System: 1) Scans and captures images of both sides of an incoming mail piece; 2) Stores each image in a TIFF, JPEG, or PDF file; 3) Labels each image with the time and date received; 4) Labels each image with a unique identification number. The Tritek Digital Email System is available in various configuration and depending on the configuration, a Tritek Digital Email System can either sort the mail into a holding tub for future mail piece scanning or automatically sort the mail for in-house mail carrier delivery.

**TRITEK ACE PARCEL/FLATS/ LETTER PROCESSING:** The Tritek ACE work station is designed to process parcels, flats and letters. ACE Work Station operation is simple, fast, and reliable. Operators place

an item on the platform while overhead camera reads the mail piece which is displayed on the touch screen computer. After the item is read the operator touches the red print button and a label is printed for that mail item. The weight and postage rate is calculated as the manifest data is stored for USPS discount reporting.

omni directionally. Tritek's 12" inch by 17" inch scan area enables entire 8.5" by 11" inch documents to be scanned. It also scans legal sized documents. The Compact series is designed to time and date stamp documents and mail. It is Sarbanes Oxley compliant -

an item on the platform while overhead camera reads the mail piece which is displayed on the touch screen computer. After the item is read the operator touches the red print button and a label is printed for that mail item. The weight and postage rate is calculated as the manifest data is stored for USPS discount reporting.

**INCOMING MAIL/PARCELS:** 1) Database match and look-up; 2) Label printing with delivery information; 3) Barcoding for tracking of mail pieces or parcels; 4) Return mail processing; 5) Mail forwarding; 6) Research mail for generically addressed mail pieces; 7) Touch screen computer for easy operation; 8) Windows Software.

**TRITEK RULE EDITOR SOFTWARE:** Tritek software allows many options to sort incoming mail. This document describes the basic system as well as options that allow for greater customization. When processing by names only, the Tritek system will locate an address (in any orientation), and search for all names in the names database.

**CORRECT ELECT VOTE-BY-MAIL:** Tritek Correct Elect Vote-by-Mail Equipment is the solution for the processing of Vote-by-Mail ballots. Voters' signatures are detected with barcodes and are verified against a database of registered voters. Tritek offers its Correct Elect Vote-by-Mail Processing Systems in three configurations: 1) An inbound sorter to support up to to 1024 bins, optional overhead mail tray racks and other sorting options; 2) A portable system; 3) A desktop unit. These machines include real-time imaging, storing, printing of time and date in addition to properly sorting votes into correct precincts.

See Tritek in these sections: *Barcoding/Sorting Systems; Digital Mail.*
