the most demanding business requirements. Generate reports and color graphs that give you the details you need with S.M.A.R.T. Reporting and always know where you items are with S.M.A.R.T. Tracking. Integrates to Quadient's iX-3, iX-5, and iX-7 mailing systems.

EMS: Whether you manage a mail center or ship packages, Quadient's Enhanced Mailing & Shipping (EMS) technology enables you to mail and ship packages quickly, efficiently and economically. Quadient EMS powerful analytics offer many tools to manage cost and analyze your company's mail and shipping operations and pinpoint incorrect addresses, lost packages and identify where money is being wasted. The address correction feature eliminates many of the problems that lead to returned and misdirected deliveries, delayed deliveries and address correction fees. Additionally, Quadient EMS helps you manage and allocate costs by account, carrier, special service and operator productivity. Quadient EMS provides support for complete company identities, allowing the shipper to process for multiple divisions, clients or customers. This powerful feature creates a separate return address and discrete billing, based on carrier account numbers, which saves accounting time and increases accuracy. It is indispensable for separate entity support to third-party logistics providers (3PL).

EMS KEY FEATURES: Multi-level accounting features enable users to assign and manage mail processing and package shipments as well as align cost to the appropriate department. Automatic fuel surcharge calculations eliminate any hidden carrier charges. Email notification for shipped, delivered or late deliveries. International mail advisor ensures shipments meet all rules and regulations for international deliveries. Best Way provides domestic and international rates for comparing rates and services levels. Online tracking for delivery status and signature capture.
