

KR 516 QUARTER FOLDER: The KR 516 handles a range of product from thin pieces 7" wide by 5" long to full size newspapers up to 64 pages thick. The belt folding system on the KR 516 enables it to run at higher speeds while two sets of spring loaded pinch rollers ensure a tight fold.

Kirk-Rudy KR 738

An all timing belt drive reduces parts wear and maintenance. Use the KR 516 inline with most major brands of addressing and inserting systems.

KR 738 ENVELOPE CONVERTING SYSTEM: Convert your flat product into a mail-ready envelope with inserts inside through our all in one system; Feed, Score, Collate Inserts, Glue, Fold and Inkjet all in the Same Pass. The KR 738 is a standalone machine running off-line from other machines. A lug driven chain carries the envelope product underneath each feeder to collate the inserts. The envelope is then glued and folded around the inserts inside it and then transported onto vacuum belts that carry product beneath the Net Jet print head to print the shipping address.

Pitney Bowes DF800 Folding System

§ Pitney Bowes Inc.

CATEGORY: Folding Machines

PRODUCT: DF Series Folding Systems

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

DF800 FOLDING SYSTEM: The DF800 can fold up to 13,000 pieces per hour. This single compact system handles many folding needs. Its small footprint allows you to increase productivity by eliminating manual folding almost anywhere in your office. You can choose from 7 standard folding options, set up jobs in no time using built-in wizards and preset and set up to 20 jobs, making it easy for anyone to operate. The DF800 folder handles paper weights from 14 lbs. to 32 lbs., and paper sizes from 5"x5" to 9"x16". Choose the ideal fold for your job from seven popular options: single-fold, double-fold, letter or C-fold, offset C-fold, Z-fold, offset Z-fold or gate-fold.

Pitney Bowes DF900 Folding System

DF900 FOLDING SYSTEM: This heavy duty and high-performance folder automatically feeds, folds and collects your envelope-ready documents in the standard stacker at speeds up to 20,000 pieces per hour. The DF900 OfficeRight™ Folder can help you create mailings to raise new service and product awareness, build customer loyalty, enhance brand recognition, and so much more quickly and easily. This folding system includes a 500 sheet feeder allowing for 7 different folds at 7 speeds (adjustable while running), and a backlit LCD control panel. It can store up to 20 jobs, load on the fly and has optional cross-folding and high-capacity stacker capabilities. With the optional cross-folding kit, you can create a second fold perpendicular to the first. This makes it easy to fold large format, complex brochures and newsletters.

Rollem's Mailstream Direct Mail Finishing System

§ Rollem International

CATEGORY: Folding Machines

PRODUCT: Mailstream Direct Mail Finishing System

COMPANY: Rollem International, 1650 S Lewis St., Anaheim, CA 92805-6413. Phone: 800-272-4381. Web: www.rollemusa.com/mail

MAILSTREAM: Print, finish, and mail 10-in-one. Mailstream, a new direct mail finishing system, converts press sheets to finished mail products while maintaining zip code order. Apply 10 processes in one operation including hot, cold and fugitive glue; tear-off coupons; tip-on cards; trimming, slitting, scoring, pattern-perforations, and scratch-off labels. Mail integrity is maintained creating folded, glued products ready for delivery to mail bins. Glue closures meet USPS requirements and eliminate need for wafer seals. In-line and near-Line configurations are available. See *Rollem in Die-Cutting, Document Processing, and Inserter sections*.

CONTACT: For more information, call 800-272-4381 or click www.rollemusa.com.
