Quadient DS-180i
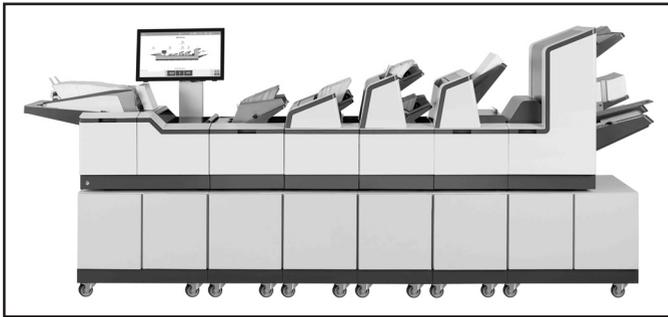

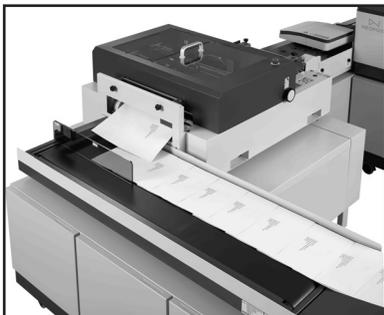

paigns to highly sensitive mailings such as medical billing, payroll and financial statements. The system uses Quadient's proprietary and robust IMOS operating system and, as a result, has the features and technology to meet the demands of your business with ease. Due to its ability to handle a superior document packet thickness of ¼", the DS-180i allows you to process a wide variety of mail for invoicing, monthly statements, marketing campaigns and virtually all of your organizations mail requirements. The system's large color graphic interface reaches new heights in user friendliness and workflow programming. Enhance the productivity of your mail center with the DS-180i Performance Package. It has earned the designation of "Performance Package" for its increased processing speed, envelope capacity, enhanced sealing capacity and productivity. The DS-180i

Quadient DS-200i

can be customized to process your applications with up to 8 system modules and 17 feeders.

DS-200i: The new standard in mail production, the DS-200i is a powerful solution that has an advanced modular design that will grow with mailer needs. Quadient engineers took a hard look at mail centers around the world and then designed this advanced folding and inserting system which can be customized to meet the workflow requirements of the widest range of mailing applications, including flats. The practical speed is up to 5,000 envelopes per hour and can handle monthly volumes up to 200,000. Users will find practical innovation everywhere you look. Powerful and intuitive, the DS-200i has an unlimited job memory; auto-setup, which eliminates hours of manual adjustments; a unique scanning module reads almost any type of document coding; landscape insertion, offering higher speeds and lower envelope costs; and a 22" color touch screen.

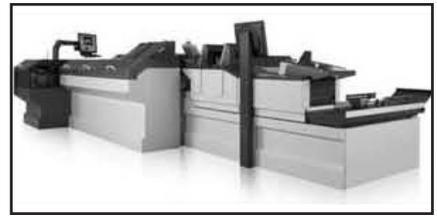

Quadient DS-600i with DEP

DS-600i: The DS600i Meets the workflow demands of almost every mailing application – from direct marketing to highly sensitive mailings including medical billing and patient information, to payroll and personal financial statements. Our inline secure personalization module provides security and the ability to meet privacy compliance
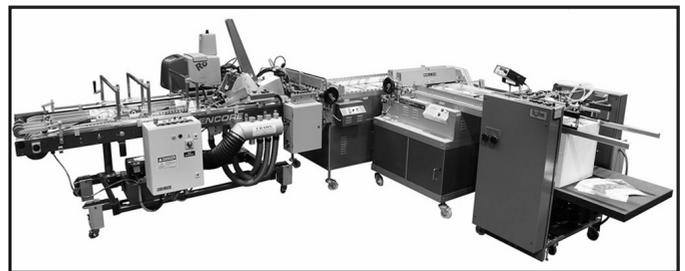

requirements. For marketers, it provides unprecedented personalization opportunities. The DS600i fully integrated direct impression envelope printing solution allows you to personalize envelopes as part of the

Quadient DS-1200G4i

mail assembly process. This eliminates the need for window envelopes and insures the privacy of your important customer information. Once the documents have been folded and inserted, the secure system prints the matched name and address on the closed face envelope. This process ensures integrity and security, allowing sensitive information to remain confidential.

DS-1200G4i: The DS-1200G4i is designed to operate at the highest practical speed and efficiency – up to 12,000 envelopes per hour – streamlining the entire mailing process, from input to throughput to output, even during peak or rush times. The high-capacity sheet feeders, insert stations, envelope feeder, and updated vertical envelope output stacker enable users to maintain the highest level of operational productivity even for the most demanding mail processing job.

Mailstream Direct Mail Finishing System

§ Rollem International

CATEGORY: Inserter Mailing Systems

PRODUCT: Mailstream Direct Mail Finishing System

COMPANY: Rollem International, 1650 S Lewis St., Anaheim, CA 92805-6413. Phone: 800-272-4381. Web: www.rollemusa.com/mail.

MAILSTREAM: Print, finish, and mail 10-in-one. Mailstream, a new direct mail finishing system, converts press sheets to finished mail products while maintaining zip

Two-Up Trifold Mailer

code order. Apply 10 processes in one operation including hot, cold and fugitive glue; tear-off coupons; tip-on cards; trimming, slitting, scoring, pattern-perforations, and scratch-off labels. Mail integrity is maintained creating folded, glued products ready for delivery to mail bins. Glue closures meet USPS requirements and eliminate the need for wafer seals. In-line and near-Line configurations available.
