COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

RELAY® 2500/3500 LOW-TO-MID VOLUME FOLDER INSERTERS:

The Relay 2500/3500 inserters bring a fast, reliable tabletop folding and inserting platform to low-to-mid volume mailers, so you

Relay® 3500 Folder Inserter

can process mail faster and more accurately than doing it by hand. It's intuitive user experience and easy-to-load feeders make it simple for even casual users to fold, insert, and seal up to 3,000 envelopes per hour, without intensive training requirements. This enhanced ease-of-use saves time and money, allowing employees

to focus their time on more important business tasks. The dedicated insert feeder makes it easy to add reply envelopes or marketing inserts along with document pages. The flexible solution can handle various envelope and paper sizes, complete with the speed and capacity to minimize stoppages.

RELAY® 4500 MID VOLUME FOLDER INSERTER: The Relay 4500 tabletop inserter makes it easy to automatically fold and insert important recurring mailings.

Relay® 4500 Folder Inserter

The Relay 4500 is fast and reliable, capable of folding, inserting, and sealing up to 3,500 envelopes per hour. The Relay 4500 offers a number of folding options including C, Z, half or even double fold for legal-size paper. The dedicated insert feeder makes it easy to add reply envelopes or marketing inserts along with documents being folded. Add accuracy and further automation with our Relay Integrity Express software, which makes it easy to add barcodes to your documents. The Relay 4500 reads the barcodes to automatically sort and collate variable page-counts to ensure the right documents reach the right recipients.

RELAY® 5000 MID VOLUME FOLDER INSERTER: The Relay 5000 brings our flagship tabletop inserting platform to mid volume mailers to bring you increased speed, flexibility and precision. This inserter folds, inserts and seals up to 62,500 a month with throughput of 4,000 envelopes per hour. We know your customers' privacy and security is critical. The optional file control is a proven Pitney Bowes technology version of file-based processing that goes beyond traditional OMR or 1D and 2D barcodes scanning by using a Reference File to control the folding and inserting process. You can track not only what pages are being folded and inserted, but also which specific pages are intended for each individual customer, giving you the capability to recreate a mailing event at a personalized recipient level. Achieve greater levels of accuracy, security and speed with the Relay 5000 inserting system.

Relay® 5000 Folder Inserter

Relay® 7000 Folder Inserter

RELAY® 7000 MID TO HIGH VOLUME TABLETOP FOLDER INSERTER:

The Relay 7000 can fold, insert and seal up to 5,400 pieces per hour with a monthly throughput of up to 120,000 envelopes per month. It brings a standard load-on-the-fly high capacity envelope feeder which can hold up to 500 envelopes. Letters and flats can be processed in the same job with counts of up to 25 pages inserted into flat envelopes. Higher volume mailers can add up to 2 high capacity sheet feeders, each with a capacity of up to 2,000 pages. The Relay 7000's optional file control integrity is the proven Pitney Bowes file-based processing technology that goes beyond traditional OMR or 1D and 2D barcodes scanning by using a Reference File to control the folding and inserting process. You can track not only what pages are being folded and inserted, but also which specific pages are intended for each individual customer, giving you the capability to recreate a mailing event at a personalized recipient level.

Relay® 8000 Folder Inserter

RELAY® 8000 HIGH VOLUME TABLETOP FOLDER INSERTER:

The Relay 8000 is our flagship tabletop folder inserter. Its enhanced chassis gives you monthly throughput of up to 200,000 envelopes per month. This inserting system can process letters and flats in the same mailing run with speeds of up to 5,400 envelopes per hour. You get peace of mind knowing your mail is completed accurately with a reliable system. Higher volume mailings are handled with ease by adding up to 2 optional high capacity sheet feeders, each with a capacity of up to 2,000 pages. The Relay 8000's optional file control integrity is the proven Pitney Bowes file-based processing technology that goes beyond traditional OMR or 1D and 2D barcode scanning by using a Reference File to control the folding and inserting process. You can track not only what

§ QUADIENT

CATEGORY: Inserting Mailing Systems

PRODUCT: Document Systems

COMPANY: Quadient, 478 Wheelers Farms Rd., Milford, CT 06461. Phone: 800-636-7678.

DS-40i: The DS-40i allows offices and departmental organizations with daily folding and inserting applications to benefit from the same advanced technology that provides the precision and reliability associated with large volume mailing systems. The DS-40i is designed to handle a monthly envelope inserting volume of 5,000. It has a simple and intuitive user interface enabling all personnel to operate the system without being trained and with no need for a dedicated operator. This automated system fits perfectly on a desk and ensures users do not have to waste time and money to hand-fold and insert their day-to-day outgoing mailing, enabling

Quadient DS-40i

on-demand inserting. The DS-40i has a simple hand-feeding option, which allows users to put the paper in its feeder every time a set of documents is read to be sent.

DS-64i: The compact design, intuitive 7" color touchscreen interface and overall ease-of-use of the DS-64i make it the ideal choice for any busi-

Quadient DS-64i

ness environment. At speeds of up to 2,000 envelopes per hour/2,500 with performance package, the DS-64i folding inserting system has the technology needed to efficiently prepare your business mailings. It automates the processing of checks, multi-page invoices, letters, legal-size documents, inserts and business reply envelopes. The CIS reads a full range of barcodes and optical marks printed on your documents, allowing securely processing of variable page documents

DS-77 iQ COMING SOON: The DS-77 iQ folder inserter system is the ideal productivity tool for any office or mailroom environment, thanks to its unique low level noise and compact footprint. High Productivity: processing speed of up to 3,800 inserts per hour, high-capacity document feeders holding up to 725 sheets of 20 lb. paper, standard high-capacity vertical stacker holding up to 500 envelopes. High Mailing Application

Quadient DS-77 iQ

Flexibility and Support: increased folding capacity; support for barcode reading in personalizing transactional and marketing mail. New Standard in Ease of Use: new graphical color touch screen designed for easy setup, semi-automatic envelope separation setup; automatic sealing liquid level detection and automated sealing capability. The DS-77 iQ can process a wide variety of mail pieces for direct marketing efforts, campaigns, invoicing, monthly statements and virtually any other application companies can or will do in the future.

DS-85i: Ideal for mail centers maintaining an outgoing speed of 4,000 filled envelopes per hour, the DS-85i provides enhanced ease-of-use, increasing customers' mailroom efficiency and productivity, while reducing postal costs. The DS-85i's unique full-color touch screen can be reversed to allow operation from any angle. Quadient's "Load 'n Go" feature further simplifies the mailing process, as users need only to load documents and envelopes into the machine and then press the "Go" button. The DS-85i automatically adjusts settings, saving them to memory for instant recall during future mailings. In addition, the folder inserter's operation requires the use of only three buttons, allowing anyone to easily run the machine. Add an optional barcode reading solution to easily apply barcodes to existing documents to ensure each recipient receives their correct documents.

Quadient DS-85i

DS-95i: The DS-95i is the ultimate mid-range solutions for your inserting needs. The completely new graphical user interface with full color icons walk the operator through set up in just three steps – and that's in manual mode! Remote Assistance provides your Quadient customer service team with immediate access to your system over the internet to help maximize your productivity. DS-95i includes a color graphical user interface with super bright touch screen; Remote Assist – connect to your service tech over the internet; flexFeed® technology gives you the ability to handle any document size or paper type; With powerFold®, you can crisply and silently fold up to 10 pages in single fold and 8 pages in tri-fold; Add optional OMR, 1D or 2D Barcode or Optical Character Recognition to ensure each recipient gets their correct documents; Configurable from two to seven stations and totally upgradeable; High capacity carrier envelope hopper holds 500 envelopes with optional 1000 envelope capacity; High capacity document feeder holds 725 sheets; Versafeeder holds up to 500 BRE envelopes; Feeder linking allows for continuous document feeding of up to 3,125 sheets.

Quadient DS-95i

DS-180i: The DS-180i folding inserting systems makes operational excellence a reality for your mail processing needs. Its modular design supports the widest range of mailing applications – from direct mail campaigns to highly sensitive mailings such as medical billing, payroll and fi-
