

Mail Accounting Systems

§ Pitney Bowes Inc.

CATEGORY: Mail Accounting Systems

PRODUCT: INVIEW Analytics; Business Manager

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

INVIEW™ ANALYTICS: INVIEW Analytics is a scalable, web-hosted application to help business mailers of all sizes report on postage spending. With it, you can seamlessly link your postage meters to a secure online account that consolidates information from multiple systems including postage spend, piece counts, class and extra services. INVIEW Analytics provides real-time postal usage and expense information. The meter reporting tool consolidates postage spend across one or more sites, enabling you to track daily or monthly spend by location or cost accounts.

INVIEW Analytics

BUSINESS MANAGER HOST ACCOUNTING: Business Manager is a PC-based information management system for your enterprise that links multiple mailing and shipping systems, at one or multiple sites, in a centrally controlled network. This system consolidates raw mailing and shipping data and summarizes it in formats you can use including analyzing expenditures, highlight potential cost reductions, and export data to back office financial systems. Business Manager connects to both your Pitney Bowes mailing systems and console inserting systems for consolidated, active reporting of production runs.

See Pitney Bowes listing in the Postage Meters Mailing Systems section.

CONTACT: For more information call 877-682-7687 or visit Pitney Bowes at PitneyBowes.com.

§ Mail Automation, Inc.

CATEGORY: Mail Carts & Accessories

PRODUCT: TubTruker and TrayTruker

COMPANY: Mail Automation, Inc., 310 Baltimore-Somerset Rd, Baltimore, OH 43105. Key Contact: Bob Dersham Phone: 844-808-5454 Email: Bob@MailAutomationInc.com

TUBTRUKER: TubTruker is versatile and can be used for all typical mail room functions. It stages materials that must be moved between operations and efficiently stores mail during inserting, metering or presorting. Easy to use and durable. Available in your choice of colors. Stores 9 tubs; durable steel construction; small footprint -- 48" long x 58" high and 20# wide.

TRAYTRUKER: TrayTruker is an efficient means of transporting trays in the mail processing operations. It holds 60 one foot trays or 30 two foot

Mail Monitoring/Visioning

§ Bell and Howell

CATEGORY: Mail Monitoring/Visioning

PRODUCTS: IQ Software Suite; JETVision®

COMPANY: Bell and Howell, 3791 S. Alston Ave., Durham, NC 27713. Phone: 800-220-3030.

IQ SOFTWARE SUITE: IQ is a comprehensive software suite that provides workflow management and real-time tracking of your entire production environment's data, from an individual item to multiple facilities. IQ is a modular and scalable solution that securely tracks data and job efficiency from a single piece to multiple facilities. The three major components completely eliminate the need for the tedious process of data collection, instead providing invaluable real-time visibility that allows for streamlined production mail environments and improved operational decisions.

JETVISION® CAMERA VERIFICATION HARDWARE SYSTEMS: The JETVision® machine

vision system combines hardware and software solutions. Vision and sensing hardware attach to a production line, collecting data in real time. These data points help control processes by validating with an external file source or reporting to operation

management. JETVision®'s robust inspection software reads, interprets and normalizes production control marks. These include features such as barcodes, serial numbers, or colors, and it mines data from virtually any document or object. Featured technologies enable both manufacturing and distribution supply chains to capture data at extreme speeds, with 100 percent integrity. This dynamic system combined with our next-generation Automated Document Factory platform provides the complete solution.
