

**Specialized Technicians:** A rigorous training program and hands-on supervised experience make our mail equipment service technicians the right choice to service your equipment, regardless of industry.

**Live Representatives, 24/7/365:** We never shut our call center down because we know that when there's a problem, you need real answers from actual humans. And with our strict escalation process, we ensure you get an answer in four hours or less. For on-site visits, we offer a firm four-hour window.

**Qualified Technicians:** Your equipment is as important to us as it is to you. That's why we only dispatch fully-trained technicians to work on your machines. If there's ever a problem our techs can't resolve, we have technical service engineers on standby for assistance.

**Cost Reduction Through Remote Tech:** Maintain and repair your mail equipment using our cutting-edge remote monitoring and repair services. Without an in-person visit, you'll save time and money while ensuring your machinery is operating optimally. We can even apply our predictive analytics to minimize future breakdowns by pinpointing potential problem areas and remotely applying a fix.

**Covering the Entire Production Mail Pipeline:** Our service solutions span mail production, distribution, and sorting. Our preventive and ongoing maintenance services for mail production equipment, mail distribution equipment, and mail sorting equipment keep things running efficiently – including the implementation of production mail data collection, audit verification, and reporting solutions.

**Kirk-Rudy KR219RRSF Roller Registration Score Folding System**

**KR 738 ENVELOPE CONVERTING SYSTEM:** Convert your flat product into a mail-ready envelope with inserts inside through our all in

**Kirk-Rudy KR 738**

one system; Feed, Score, Collate Inserts, Glue, Fold and Inkjet all in the Same Pass. The KR 738 is a standalone machine running off-line from other machines. A lug driven chain carries the envelope product underneath each feeder to collate the inserts. The envelope is then glued and folded

around the inserts inside it and then transported onto vacuum belts that carry product beneath the Net Jet print head to print the shipping address.

## § Kirk-Rudy, Inc.

**CATEGORY:** Folding Machines

**PRODUCT:** KR219RRSF Folding System; KR 516; KR738

**COMPANY:** Kirk-Rudy, Inc., 125 Lorraine Parkway, Woodstock, GA 30188. Key Contact: Sales Email: [info@kirkrudy.com](mailto:info@kirkrudy.com). Phone: 770-427-4203.

**KR219RRSF-ROLLER REGISTRATION SCORE FOLDING SYSTEM:** Add roller registration folding capabilities to your attaching and inkjet printing systems with the KR219RRSF. Designed to handle a wide variety of product including those containing cards, magnets or product samples, the KR219RRSF helps bring automation capabilities to your operation. The KR219RRSF is engineered to produce letterpress style creasing and buckle folder style folds so you can avoid outsourcing forever. Rollers register the product accurately as it enters the KR219RRSF. Vacuum belts and individually spring loaded urethane rollers transports the piece through the folding section. The folding section aligns easily with the score using the adjustment handle. Options are available for expanding KR219RRSF capabilities. For additional folds, run inline with a KR219FM. Glue systems are easily added for sealing the piece closed. Camera scanning systems verify or lookup and track each piece through the system for inkjet printing after the fold.

**KR 516 QUARTER FOLDER:** The KR 516 handles a range of product from thin pieces 7" wide by 5" long to full size newspapers up to 64 pages thick. The belt folding system on the KR 516 enables it to run at higher speeds while two sets of spring loaded pinch rollers ensure a tight fold. An all timing belt drive reduces parts wear and maintenance. Use the KR 516 inline with most major brands of addressing and inserting systems.

## § Pitney Bowes Inc.

**CATEGORY:** Folding Machines

**PRODUCT:** OfficeRight Folders

**COMPANY:** Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: [PitneyBowes.com](http://PitneyBowes.com)

**DF800 FOLDING SYSTEM:** The DF800 can fold up to 13,000 pieces per hour. This single compact system handles many folding needs. Its small footprint allows you to increase productivity by eliminating manual folding almost anywhere in your office. You can choose from 7 standard folding options, set up jobs in no time using built-in wizards and preset and set up to 20 jobs, making it easy for anyone to operate. The DF800 folder handles paper weights from 14 lbs. to 32 lbs., and paper sizes from 5"x5" to 9"x16". Choose the ideal fold for your job from seven popular options:
