COMPETITIVE PRICE CHANGES

Docket No. CP2025-1

**USPS NOTICE OF CHANGES IN
RATES AND CLASSIFICATIONS OF GENERAL APPLICABILITY
FOR COMPETITIVE PRODUCTS**
(November 15, 2024)

Pursuant to 39 C.F.R. §§ 3035.102, 3035.103, and 3035.104, the United States Postal Service hereby gives notice of changes in rates and classifications of general applicability for competitive products. In accordance with Rule 3035.102(b), Rule 3035.103(b), and Rule 3035.104(b), this Notice provides the Governors' Decision establishing the changes, including a statement of explanation and justification, and certification of the vote. The new prices will take effect on January 19, 2025.

Attached to this pleading is a schedule showing the new prices and classification changes incorporated into a draft of the revisions to the competitive products section of the Mail Classification Schedule. Classification changes established by this Governors' Decision are shown in legislative format. Also being filed herewith is a non-public annex showing FY 2025 projected volumes, revenues, attributable costs, contribution, and cost coverage for each product. Additionally, in accordance with Order No. 1062, the Postal Service is filing supporting forecast data and price adjustment calculations for each affected product. An application for non-public treatment of this material is attached to

this pleading, along with a redacted, public version of the annex. Redacted versions of certain supporting materials are also being filed.

Proposed Price Changes for January 2025

The price changes proposed in this filing are straightforward and relatively consistent across our competitive products. Moderate price changes are being made for Priority Mail Express, Priority Mail, USPS Ground Advantage, and several International Products. Average prices for the International Ancillary Services product will decline because of a price decrease for Outbound International Insurance, which is intended to better align those prices with the market and stem a recent decline in Outbound International Insurance transactions. The Postal Service is including the requisite revenue and cost data and certified statement in accordance with 39 C.F.R. § 3035.103. The certified statement is attached to this Notice. Competitive products in total will remain in compliance with 39 U.S.C. § 3633(a)(1) and (3).

Parcel Select prices will see a somewhat higher increase of 9.2 percent on average, as we continue to align our product and pricing strategies with our operating model and goals for Parcel Select. Domestic Extra Services, which includes Premium Forwarding Service, Competitive Post Office Boxes, and Adult Signature Service among others, will see minor price adjustments for January 2025. Post Office Box prices will remain within existing ranges. The fee for deterring overweight/oversized items found in the postal system will be increased from \$100.00 to \$200.00, while the upper bounds for price ranges for Greeting Cards and Stationery and Officially Licensed Retail Products will increase to accommodate current and future offerings. New for 2025, a Live Animal and Perishable Handling Fee will be introduced under Priority Mail Express, Priority

Mail, and USPS Ground Advantage. Live animals and perishables have always been handled outside of our normal operations because of the delicate nature of the contents. This new Live Animal and Perishable Handling Fee is designed to cover the additional costs associated with handling and transporting these items. It will apply to shipments of all lives and all perishable items for which the extra costs are incurred.

Proposed Classification Changes for January 2025

No additional classification changes are proposed for January 2025 beyond those made to rate tables in order to effectuate the price and fee changes, and to establish the new Live Animal and Perishable Handling Fee. The introduction of the Live Animal and Perishable Handling Fee is a change in rates of general applicability for competitive products within the meaning of 39 C.F.R § 3035.102, and falls within the Postal Service's broad discretion under Title 39 to establish rates for competitive products.

Even if the Commission disagrees with this conclusion, the Postal Service submits that this change clearly meets the required legal standards even for a material classification change within the meaning of 39 C.F.R § 3040.180. As noted above, the Live Animal and Perishable Handling Fee is designed to cover the additional costs associated with handling and transporting these unique items, which require handling outside of our normal operations. While the addition of this new fee will have an impact on the overall shipping costs for shippers of these items, it is appropriate and fully consistent with the statute for the Postal Service to charge a fee reflecting the additional costs incurred in handling these shipments. Furthermore, the Postal Service will apply

the fee equitably to all shipments of live items and perishable items that require our additional handling. Finally, this change will have no effect on the ability of the Postal Service's competitive products to cover their costs and collectively contribute an appropriate share to institutional costs. 39 C.F.R. § 3040.181(b-c).

The Governors' Decision and record of proceedings will be published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2).

Respectfully submitted,

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON CHANGES
IN RATES AND CLASSIFICATIONS OF GENERAL APPLICABILITY FOR COMPETITIVE
PRODUCTS (GOVERNORS' DECISION NO. 24-7)**

November 13, 2024

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish prices and classifications of general applicability for the Postal Service's competitive products. The changes are described generally below, with a detailed description of the changes in the Postal Service's associated draft Mail Classification Schedule change document. That document contains the draft Mail Classification Schedule sections with classification changes in legislative format, and new prices displayed in the price charts.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3035.107(c), requires competitive products collectively to contribute a minimum of 9.6 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices and classification changes are in accordance with 39 U.S.C. §§ 3632–3633 and 39 C.F.R. §§ 3035.102 and 104.

I. Domestic Products

A. Priority Mail Express

Overall, the Priority Mail Express price change represents a 3.2 percent increase. In 2023, we consolidated the Commercial Base and Commercial Plus price categories into one Commercial price category and differentiated the "Local, 1, 2" Zone prices. For January 2025, this new structure will be maintained. Dimensional weighting, which was introduced for all zones in 2019, will also continue in 2025.

Retail prices will increase an average of 3.2 percent. The price for the Retail Flat Rate Envelope, a significant portion of all Priority Mail Express volume, will increase to \$31.40, with the Legal Size and Padded Flat Rate Envelopes priced at \$31.65 and \$32.25, respectively.

The Commercial price category will increase 3.2 percent on average. Commercial prices will, on average, reflect a 12.4 percent discount off of Retail prices. New for 2025, a Live Animal and Perishable Handling Fee of \$7.50 will be introduced under Priority Mail Express to cover the additional costs associated with handling and transporting these items.

B. Priority Mail

On average, the Priority Mail prices will be increased by 3.2 percent. Similar to Priority Mail Express, the Commercial Base and Commercial Plus price categories were consolidated into one Priority Mail Commercial price category and "Local, 1, 2" Zone prices were differentiated in 2023. For January 2025, this new structure will be maintained. Dimensional weighting, which was introduced for all zones in 2019, will also continue in 2025.

Retail prices will increase by an average of 3.2 percent. Retail Flat Rate Box prices will be: Small, \$10.65; Medium, \$19.15; Large, \$26.30 and Large APO/FPO/DPO, \$25.05. Thus, the Large APO/FPO/DPO Flat Rate Box will be \$1.25 less than the Large Flat Rate Box. The regular Flat Rate Envelope will be priced at \$10.10, with the Legal Size and Padded Flat Rate Envelopes priced at \$10.40 and \$10.85, respectively.

The Commercial price category will increase by 3.2 percent on average. Commercial prices will, on average, reflect a 20.8 percent discount off of Retail prices. New for 2025,

a Live Animal and Perishable Handling Fee of \$15.00 will be introduced under Priority Mail to cover the additional costs associated with handling and transporting these items.

C. Parcel Select

On average, Parcel Select prices as a whole will increase 9.2 percent. For destination delivery unit (DDU) entered parcels, the average price increase is 10.3 percent. For destination hub (Dhub) entered parcels, the average price increase is 0.0 percent. For destination sectional center facility (DSCF) destination entered parcels, the average price increase is 7.1 percent. For destination network distribution center (DNDC) parcels, the average price increase is 9.7 percent. For Connect Local, introduced in 2022, the average price increase is 5.4 percent. Dimensional weighting, which was introduced for all zones in 2019, will continue in 2025. To account for inflation, the fee for Forward and Return to Sender will be increased to \$3.60, while the fee for Address Correction Service (ACS) with Shipper Paid Forwarding>Returns will be increased to \$3.00.

D. USPS Ground Advantage

USPS Ground Advantage, introduced in July 2023, is the Postal Service's flagship ground package product. The existing structure will be maintained for 2025. Overall, USPS Ground Advantage prices will increase 3.9 percent on average. Retail prices will increase 4.9 percent on average, while Commercial prices will increase 3.2 percent on average. The Alaska Limited Overland Routes (LOR) price category will see a 9.0 percent average increase for January 2025. New for 2025, a Live Animal and Perishable Handling Fee of \$7.50 will be introduced under USPS Ground Advantage to cover our additional handling costs for these items.

E. Domestic Extra Services

The fee for Label Delivery Service, introduced in 2023 under the Competitive Ancillary Services product, will remain at \$1.55 for 2025.

Finally, in 2025, the fee for deterring overweight/oversized items found in the system will be increased from \$100.00 to \$200.00. The upper bounds for the price ranges for Greeting Cards and Stationery and Officially Licensed Retail Products will be increased to accommodate current and future offerings.

Retail Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Loyalty Program

The Loyalty Program was introduced in August 2020, and allowed USPS Click-N-Ship business customers shipping at Retail rates to earn credits and other incentives based on their annual shipping spend. As of June 10, 2023, Loyalty Program customers will no longer be able to earn credits under this program. Existing Loyalty Program customers in the Basic, Silver, and Gold tiers will be able to redeem credits until June 9, 2024. Credits may be redeemed on shipments made at Commercial published prices.

Retail Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Loyalty Program

The Loyalty Program was introduced in August 2020, and allowed USPS Click-N- Ship business customers shipping at Retail rates to earn credits and other incentives based on their annual shipping spend. As of June 10, 2023, Loyalty Program customers will no longer be able to earn credits under this program. Existing Loyalty Program customers in the Basic, Silver, and Gold tiers will be able to redeem credits until June 9, 2024. Credits may be redeemed on shipments made at Commercial published prices.

Commercial (Base and Plus) Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3011.201, the Postal Service hereby applies for non-public treatment of the attributable cost, contribution, and cost coverage data in the unredacted version of the annex to Governors' Decision No. 24-7, as well as the supporting materials for those data, which include disaggregated product volume, weight, and revenue distribution information by price cell. The materials consist of spreadsheets that contain calculations to determine the weighted average price increase and cost coverage for each competitive product within the scope of this docket. The Postal Service hereby furnishes below the justification for this application as required by each subsection of 39 C.F.R. § 3011.201(b). For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials. The Postal Service is concurrently filing redacted versions of these files, where it has determined redactions to be practicable.

(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.

The materials designated as non-public consist of information of a commercial nature as well as third-party business information that, under good business practice, would not be disclosed to the public. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (b)(4).¹ Because the portions of the materials filed non-publicly

¹ In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury,

in this docket by the Postal Service fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

- (2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.²**

The Postal Service believes that FedEx Express may have a proprietary interest in some of the data concerning Global Express Guaranteed (GXG) in the materials submitted.³ The Postal Service informed FedEx Corporation, in compliance with 39 C.F.R. § 3011.200(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The identified contact is:

FedEx Corporation
Jimmy R. (Rusty) Phillips Jr.
Staff Vice President, Customer/Business Transactions

such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² Section 3011.201(b)(2) further states the following:

(i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the materials.

(ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

(iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

³ Although FedEx Express might have a proprietary interest in data reflecting volume or weights for GXG, the Postal Service maintains that the Postal Service is the only party with a proprietary interest in revenue data reflecting GXG transactions between the Postal Service and its customers.

The Postal Service also believes that Spectrum Global Payment Solutions. may have a proprietary interest in some of the data in the materials submitted concerning International Money Transfer Service. The Postal Service informed Spectrum Global Payment Solutions, in compliance with 39 C.F.R. § 3011.200(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies the appropriate contact as:

Spectrum Global Payment Solutions, Inc
Aurora Garza Hagan, CEO
281-765-1525
Aurora.garza@btsincusa.com

The Postal Service further believes that a few foreign postal operators may have a proprietary interest in some of the data in the materials submitted. The Postal Service, in conjunction with the United States Department of State, requested that the Universal Postal Union (UPU) International Bureau (IB) issue a Circular notice to all countries and designated operators informing each of its rights under 39 C.F.R. § 3007.204. This notification was published by the IB in Circular No. 205 on December 18, 2023. Specifically, the notice informs all countries and designated operators that the Postal Service will be regularly submitting certain business information to the Commission. UPU-designated foreign postal operators (FPOs) have a proprietary interest in information relating to their particular flows. The circular includes information on how third parties may address any confidentiality concerns with the Commission. Contact information for foreign posts may be found at: <https://www.upu.int/en/universal-postal-union/about-upu/member-countries?csid=-1&cid=257#mb--1>.

- (3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.**

The redacted information consists of the projected FY 2025 attributable cost, contribution, and cost coverage for each competitive product that is the subject of this docket. The Postal Service has filed information concerning the calculations used to develop the weighted average price increase by product and cost coverage. Protected information in the spreadsheets includes volume and revenue by price cell (weight increment and zone), as well as product-specific cost data and other supporting data. Such information for competitive product categories is commercially sensitive at the disaggregated, cell-specific level shown in the spreadsheets.

- (4) Particular identification of the nature and extent of the harm alleged and the likelihood of each harm alleged to result from disclosure.**

If competitors of the Postal Service were to have access to this information, they would likely focus their marketing and price cutting efforts on the Postal Service's most profitable products. This will lead to erosion of contribution of these products through lost sales and/or the need to lower prices to compete. Postal product cost and contribution information would provide suppliers of postal transportation and other services with information they could use to seek higher rates for services they provide. This would lead to higher postal costs and loss of contribution. Although the extent of the commercial harm is difficult to quantify, given that Shipping Services is a multi-billion dollar enterprise, even a small change in market share, prices, or costs could lead to millions of dollars in lost revenue, higher costs, and lower contribution margins. It is

highly likely that if this information were made public, the Postal Service's competitors and suppliers would take advantage of it almost immediately.

Competitors could use the product-specific revenue, pieces, and weight information to analyze the Postal Service's possible market strengths and weaknesses and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Disclosure of this information would also undermine the Postal Service's position in negotiating favorable terms with potential customers, who would be able to ascertain critical information about relevant product trends (e.g., average revenue per piece, average weight per piece).

(5) At least one specific hypothetical, illustrative example of each alleged harm.

Identified harm: Competitors could use product cost, contribution, or cost coverage information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment.

Hypothetical: Cost, contribution and/or cost coverage information is released to the public and available to a competitor. The competitor assesses the profitability of certain services based on the data released. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service has substantial contribution, thereby hindering the Postal Service's ability to maintain these customers.

Identified harm: Competitors could use disaggregated product volume, weight, and revenue distribution information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment, and also during negotiations with the Postal Service.

Hypothetical: Disaggregated revenue, volume, and weights contained in the Nonpublic Annex are disclosed to the public. Another delivery service's employee monitors the filing of this information and passes it along to the firm's sales and marketing functions. The competitor assesses the profitability of certain services on a per-piece or per-pound basis or the Postal Service's relative concentration in certain service offerings. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service appears to have made headway, hindering the Postal Service's ability to reach out effectively to these customers.

(6) The extent of the protection from public disclosure alleged to be necessary.

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the market for domestic parcel shipping products and in the market for international delivery products (including both private sector integrators and foreign postal operators), as well as their consultants and attorneys. Additionally, suppliers of transportation or other services to the Postal Service that affect costs for competitive services should not have access to these materials; this restriction should include their consultants and attorneys. Also, the Postal Service believes that foreign postal operators, as well as actual or potential customers of a postal operator for this or similar products should not be provided access to the non-public Excel worksheets.

(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with third parties that may have a proprietary interest in protected materials often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

(8) Any other relevant factors or reasons to support the application.

None.

Conclusion

For the reasons discussed in this application, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
