DRAFT

TABLE OF CONTENTS

1.0 INTRODUCTION.....	6
2.0 MAIL.DAT CLIENT SUPPORT.....	6
3.0 APPLICABLE TECHNICAL SPECIFICATIONS	6
3.1 Updates to <i>PostalOne!</i> System eDoc Specification Version Support	6
3.1.1 Mail.dat eDoc	6
3.1.2 Mail.XML eDoc.....	6
3.2 Updates to PostalOne! System Mail.XML Data Distribution, Mailer ID – Customer Registration ID (MID-CRID), and Facility Access and Shipment Tracking (FAST) Specification Version Support	7
3.3 Updates to Shipping Services File (SSF) Version Support	7
4.0 <i>POSTALONE!</i> SYSTEM.....	8
4.1 Omnibus Price Change Price Change	8
4.1.1 Postal Wizard.....	8
4.1.2 USPS BlueEarth Carbon Accounting Report.....	8
4.1.3 Electronic Verification Service (eVS)	8
4.1.4 Performance Based Verification (PBV).....	8
4.1.5 Manifest Mailing System (MMS)	9
4.1.6 Postage Statements.....	9
4.1.7 Volume Information Profile (VIP) Codes	9
4.2 Electronic Verification System (eVS) Retirement	9
4.2.1 Discontinuation of System Interface with eVS	10
4.2.2 eVS Reporting Support	10
4.2.3 Publications, Communications and Training Support	10
4.3 Postage Statement Enhancements	10
4.4 Eliminate Marketing Mail Commercial & Nonprofit Automation Basic CR Letters	10
4.4.1 Mail.dat and Mail.XML	10
4.4.2 Performance Based Verification (PBV).....	11
4.4.3 Postage Statements.....	12
4.4.4 Postal Wizard Updates to Support the Elimination of Marketing Mail Commercial & Nonprofit Automation Basic CR Letters	13
4.5 Elimination of BPM Flats/Parcels and Adjustment of Marketing Mail Rate Structure	13
4.5.1 Postage Statements.....	13
4.5.2 Performance Based Verification (PBV).....	13
4.5.3 Electronic Verification Service (eVS)	14
4.6 Eliminate Media and Library Mail Presort Prices.....	15
4.6.1 Mail.dat and Mail.XML	16
4.6.2 Performance Based Verification (PBV).....	16
4.6.3 Postage Statements.....	16
4.6.4 Electronic Verification Service (eVS)	16
4.7 Alaska Bypass Nomenclature Update.....	18
4.8 Nonstandard Fee Overhaul	18
4.8.1 Noncompliance Fee Enhancements	20
4.8.2 Application of Highest Nonstandard Fee	20
4.8.3 Report and Form Updates	20
4.8.4 Manifest Processing Support	20
4.8.5 Nonstandard Fee Configuration Updates	21
4.8.6 Exclusion Rules	21
4.9 Marriage Mail Incentive Extension to High Density Plus Letters and Flats	25
4.9.1 Mail.dat and Mail.XML	25
4.9.2 Postage Statements.....	25
4.9.3 Postal Wizard Updates to Support the Marriage Mail Incentive Extension to High Density Plus Letters and Flats	27
4.10 Updates to USPS Marketing Mail Nonprofit Parcels Dimensions	27

4.10.1 Electronic Verification Service (eVS)	27
4.10.2 Postal Wizard Updates to Support USPS Marketing Mail Nonprofit Parcels Dimensions	32
4.11 Combine Plus One and DML Products	33
4.12 2026 Mailing Promotions	33
4.13 Sealing Ground Advantage Commercial from Inspection & Permitting PII Contents	34
4.14 2026 Mail Growth Incentives	34
4.15 SCF Pallet discount for First-Class mailpieces (Commercial Cards, Letters, and Flats)	35
4.15.1 Mail.dat and Mail.XML	35
4.15.2 Performance Based Verification (PBV)	37
4.15.3 Postage Statements	39
4.16 Eliminate Bundling for FCM Flats Prepared in Tubs	39
4.17 Eliminate DNDC Discount for Marketing Mail, Periodicals and Bound Printed Matter	39
4.18 Updates to Pallet Priority Mail Open & Distribute (PPMOD) Service – Single Label Solution	40
4.19 Updates to PMOD & PMEOD Services – Sack Preparation and Processing	40
4.20 Add 5D/Direct Container and SCF-Pallet discounts to Marketing Mail Heavy Printed Matter	41
4.21 Eliminating DNDC Pricing for Parcel Select	41
4.21.1 Electronic Verification Service (eVS)	41
4.21.2 Postal Wizard Updates to Support the Elimination of DNDC Pricing	43
5.0 DOCUMENT HISTORY	44

1.0 Introduction

On Sunday, June 29, 2025, the United States Postal Service implemented the following software change:

- *PostalOne!* System Release 62.0.0.0

These Release Notes provide the contents of the release(s) and affected subsystems.

The section titled **Corrections to Known Issues** is derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs) for inclusion in this release.

This document is prepared based on the knowledge available at the time of its publication.

2.0 Mail.dat Client Support

Please note the following regarding the Mail.dat client download.

There is a new **required** Mail.dat client with this release. Users should download Mail.dat client 62.0.0.0_PROD from the Business Customer Gateway (BCG) using the following path: Mailing Services → Electronic Data Exchange [Go to Service] → Mail.dat download (Windows 32-bit, Windows 64-bit or Solaris).

3.0 Applicable Technical Specifications

3.1 Updates to *PostalOne!* System eDoc Specification Version Support

3.1.1 Mail.dat eDoc

The below table depicts the Mail.dat specification versions that are supported with the July 2025 release. For additional details, refer to the eDoc technical specifications on PostalPro: [USPS Technical Specifications for Mail.dat and Mail.XML](#). REQ 24906

Versions	Prior to Deployment Date	Deployment Date to Price Change Effective Date	Price Change Effective Date and After
23-1	Supported	Supported	–
24-1	Supported	Supported	Supported
25-1	–	Supported	Supported

Table 1 – Mail.dat eDoc Version Support

3.1.2 Mail.XML eDoc

The table below depicts the Mail.XML specification versions that are supported with the July 2025 release. For additional details, refer to the eDoc technical specifications on PostalPro: [USPS Technical Specifications for Mail.dat and Mail.XML](#). REQ 24955, REQ 25003, REQ 25004, REQ 25005

3.2 Updates to PostalOne! System Mail.XML Data Distribution, Mailer ID – Customer Registration ID (MID-CRID), and Facility Access and Shipment Tracking (FAST) Specification Version Support

The table below depicts the specification versions that are supported with the July 2025 release.

Versions	Data Distribution Mail.XML		MID-CRID Mail.XML		FAST Mail.XML	
	Prior to Deployment Date	Post-Release	Prior to Deployment Date	Post-Release	Prior to Deployment Date	Post-Release
14.0A	Supported	Supported	Supported	Supported	Supported	Supported
16.0	Supported	Supported	Supported	Supported	Supported	Supported
<p>Note: No change to supported versions for DD, MID-CRID. Updates to FAST, required for appointment processing for Processing Category of Nonstandard.</p>						

Table 3 – Mail.XML Data Distribution, MID-CRID, and FAST Version Support

3.3 Updates to Shipping Services File (SSF) Version Support

The table below depicts the specification versions that are supported with the July 2025 release.

Versions	Prior to Deployment Date	On and After Deployment Date
1.6	Supported	Supported
1.7	Supported	Supported
2.0	Supported	Supported
<p>Note: No change to supported versions. New rate ingredients (or combinations of existing rates) may be required to support the changes.</p>		

Table 4 – SSF Version Support

4.0 PostalOne! System

4.1 Omnibus Price Change Price Change

The *PostalOne!* System will be updated to support new pricing structures and rates for domestic and international mailings, effective July 13, 2025. To accommodate the pricing and structural changes the US Postal Service will update domestic and international postage statements, permit fees, Business Reply Mail (BRM), and Merchandise Return Service (MRS) to reflect the prices on the July 2025 Notice 123, effective July 13, 2025. [REQ 25268](#), [REQ 25273](#), [REQ 25274](#)

Updated price change documents can be found on [July 2025 Price Change - Postal Explorer](#).

4.1.1 Postal Wizard

- The *PostalOne!* System Postal Wizard application will be updated to support the pre-price change rate case for domestic and international mail so that the applications can correctly calculate postage for mailings submitted prior to the July 13, 2025 effective date. [REQ 25214](#), [REQ 25220](#)
- All domestic and international mail classes in Postal Wizard will be updated to reflect pricing in the July 2025 Notice 123.
- The Postal Wizard applications will be updated to reflect pricing in the July 2025 Notice 123 for domestic and international eDoc submissions. The following products will be updated to reflect the new pricing:
 - Domestic
 - Priority Mail (PM)
 - Priority Mail Express (PME)
 - USPS Ground Advantage (GA)
 - Parcel Select (PS)
 - Extra Services [REQ 25212](#)

4.1.2 USPS BlueEarth Carbon Accounting Report

The *PostalOne!* System USPS BlueEarth Carbon Accounting report will be updated to calculate the carbon footprint according to the new pricing structure. [REQ 25142](#), [REQ 25276](#)

4.1.3 Electronic Verification Service (eVS)

- eVS will update the USPS BlueEarth Carbon Accounting report to calculate the carbon footprint based on the new pricing structure and prices effective July 13, 2025.
- Manifests submitted for the following mail classes will be updated to reflect the prices in the July 2025 Notice 123.
 - Domestic
 - Parcel Select
 - USPS Ground Advantage
 - Priority Mail
 - Bound Printed Matter
 - Priority Mail Express
 - Media Mail
 - Library Mail [REQ 25138](#), [REQ 25139](#), [REQ 25140](#), [REQ 25141](#), [REQ 25143](#), [REQ 25144](#)

4.1.4 Performance Based Verification (PBV)

The *PostalOne!* System will update the following PBV worksheets to reflect prices as indicated in Notice 123. Users will be able to verify that all worksheets reflect the correct pricing structure when finalizing postage statements, including statements entered in the Self-Service Terminal (SST) or Verification Results Storage Record (VRSR).

- Content Eligibility
- Bundle Preparation
- Deflection Testing
- Dropship Management System (DSMS)
- Full Service
- Manual Barcode
- Manual Presort
- Manifest Mailing System (MMS) – link only
- Plant Verified Drop Shipment (PVDS)
- Shortpaid
- Plan Verified Drop Shipment
- Mail Piece Count Verification
- Intelligent Mail Package Barcode
- Weight Verification
- Non-Automation [REQ 25125](#), [REQ 25128](#), [REQ 25129](#)

4.1.5 Manifest Mailing System (MMS)

The *PostalOne!* System MMS worksheets will be updated to reflect the pricing in the July 2025 Notice 123.

4.1.6 Postage Statements

All international and domestic postage statement downloads will be updated to reflect the new pricing structure, and the date in the postage statement footers will be updated to July 2025.

- Domestic
 - Periodicals – One Issue or One Edition (PS Form 3541 Periodicals)
 - PS Form 3560 PME eVS Only
 - Priority Mail – Permit Imprint (PS Form 3600 PM)
 - First-Class Mail and USPS Ground Advantage (PS Form 3600 FCM)
 - USPS Marketing Mail – Easy Nonautomation Letters or Flats (PS Form 3602-EZ)
 - Nonprofit USPS Marketing Mail – Easy Nonautomation Letters or Flats (PS Form 3602-NZ)
 - USPS Marketing Mail (PS Form 3602-R)
 - Nonprofit USPS Marketing Mail (PS Form 3602-N)
 - Package Services and Parcel Select Destination Entry (PS Form 3605-R) [REQ 25123](#), [REQ 25211](#), [REQ 25219](#)

4.1.7 Volume Information Profile (VIP) Codes

The VIP codes for domestic and international products will reflect the pricing in the July 2025 Notice 123. [REQ 25275](#)

4.2 Electronic Verification System (eVS) Retirement

The Postal Service will discontinue use of the Electronic Verification System (eVS) and require the use of USPS Ship for the acceptance and payment of all commercial domestic and international parcel mailings. All systems interfacing with eVS will turn off their feed on July 31, 2025 and all transactions will be sent to USPS Ship. Technical support for eVS will continue until (date TBD).

All reporting systems currently supporting reports for eVS will be maintained until account data can be migrated to USPS Ship (date TBD). Reports will remain available under current retention periods. Refunds, adjustments, and

reconciliation processes will be maintained until eVS retirement or USPS Ship migration.

4.2.1 Discontinuation of System Interface with eVS

All systems interfacing with eVS will turn off their feed on July 31, 2025 and all transactions will be sent to USPS Ship. Technical support for eVS will continue until (date TBD).

4.2.2 eVS Reporting Support

All reporting systems currently supporting reports for eVS will be maintained until account data can be migrated to USPS Ship (date TBD). Reports will remain available under current retention periods.

4.2.3 Publications, Communications and Training Support

Publications currently referencing eVS will be updated to USPS Ship by (date TBD).

Internal and external communications will be created for employees and customers to ensure that they understand what is involved in the migration to USPS Ship and retirement of eVS.

4.3 Postage Statement Enhancements

The RPW Mail category codes will be enhanced to improve reporting on discounts, incentives, and promotions in both the TRAN and PLINE files, providing users with clear visibility into negative revenue and volume data at the product rate-cell level.

4.4 Eliminate Marketing Mail Commercial & Nonprofit Automation Basic CR Letters

The US Postal Service is considering eliminating Marketing Mail commercial and nonprofit Automation Basic CR letter rates.

Summary of Application Impacts

- Online Reporting: Yes - Reports will be updated to reflect the removal of Basic CR rates data for automation letters.
- Data Feeds: Yes - Data feeds will be updated to reflect the proposed changes and continue to report on USPS Marketing Mail data.
- Postage Statement and SKU Changes: Yes - PS form 3602-R/N (Part C) and Notice 123 will be updated to remove Basic CR for automation letters.
- Mail.dat changes: Yes - Validations, core rate table and the USPS technical specification will be updated to support the removal of the Basic CR rate for automation letters.
- Mail.XML changes: Yes - Validations, core rate table and the USPS technical specification will be updated to support the removal of the Basic CR rate for letters.
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.4.1 Mail.dat and Mail.XML

Mail.dat and Mail.XML will be updated to remove the following validations for USPS Marketing Mail Automation Basic Carrier Route letter rates on USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. The validation changes are shown in the tables below. [REQ 25105](#), [REQ 25106](#)

4.4.3 Postage Statements

The postage statement downloads for USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part C will be updated to reflect the removal of USPS Marketing Mail Automation Basic Carrier

Route letter rates to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. [REQ 25119](#)

4.4.4 Postal Wizard Updates to Support the Elimination of Marketing Mail Commercial & Nonprofit Automation Basic CR Letters

The *PostalOne!* System Postal Wizard module will be updated to reflect the removal of USPS Marketing Mail Automation Basic Carrier Route letter rates for Marketing Mail (PS Form 3602-R) Part C and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part C effective July 13, 2025 as shown above in Table 7 – USPS Marketing Mail Automation Basic Carrier Route Letter Lines to be Removed and Table 9 – USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) Automation Basic Carrier Route Letter Discounts to be Removed. [REQ 25201](#), [REQ 25202](#)

4.5 Elimination of BPM Flats/Parcels and Adjustment of Marketing Mail Rate Structure

The US Postal Service is considering eliminating Bound Printed Matter (BPM) Flats and BPM Parcels and expanding Marketing Mail Commercial and Nonprofit rate categories to accommodate the BPM volume. The Marketing Mail Flats weight will be extended to 20 ounces. Marketing Mail Flat Carrier Route product categories will be extended to 24 ounces. A new Commercial and Nonprofit Marketing Mail Parcels rate category “Heavy Printed Matter” (HPM) will be introduced, with a weight limit up to 15 pounds. Nonpresorted rates would be added to both Marketing Mail Flats and Marketing Mail Parcels.

Summary of Application Impacts

- Online Reporting: Yes - Existing reports will be updated to reflect the proposed changes and continue to report on Marketing Mail mailings.
- Data Feeds: Yes - Existing data feeds will be updated to reflect the proposed changes and continue to report on Marketing Mail mailings.
- Postage Statement and SKU Changes: Yes - PS Form 3602 R/N will be updated to include the removal of BPM references and add HPM and nonpresorted rates; PS Form 3605 - R will be updated to remove BPM Flats and Parcels.
- Mail.dat changes: Yes - The core rates tables for Marketing Mail (3602 R/N) Package Services and Parcel Select Destination Entry (3605-R); the USPS technical specifications for Mail.dat and validations will be updated to reflect the elimination of BPM Flats and Parcels and the adjustment of the Marketing Mail rate structure for Flats and Parcels.
- Mail.XML changes: Yes - The core rates tables for Marketing Mail (3602 R/N) and Package Services and Parcel Select Destination Entry (3605-R) and the USPS technical specifications for Mail.XML will be updated.
- Shipping Services File (SSF) Changes: Yes - The rate ingredients will be updated to reflect the proposed changes.
- Indicum Creation Record (ICR) File: Yes - The rate ingredients will be updated to reflect the proposed changes.
- WebTools: Yes - The rate API will be updated to reflect the elimination of BPM Flats and Parcels and the adjustment of the Marketing Mail rate structure for Flats and Parcels.
- USPS API: Yes - The pricing API will be updated to reflect the elimination of BPM Flats and Parcels and the adjustment of the Marketing Mail rate structure for Flats and Parcels.
- Price Change Type / Product Type: Market Dominant

4.5.1 Postage Statements

The postage statement downloads for Package Services and Parcel Select Destination Entry (PS Form 3605-R) Part A, USPS Marketing Mail (PS Form 3602-R) Parts D, E, F, G, K and Nonprofit USPS Marketing Mail (PS Form 3602-N) Parts D, E, F, G, I, J, K will be updated to reflect the elimination of Bound Printed Matter for Flats and Parcels to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. [REQ 25115](#), [REQ 25121](#), [REQ 25122](#)

4.5.2 Performance Based Verification (PBV)

The *PostalOne!* System PBV worksheets will be updated to reflect the removal of elimination of Bound Printed Matter

for Flats and Parcels on Package Services and Parcel Select Destination Entry (PS Form 3605-R) Part A. [REQ 25118](#)

4.5.3 Electronic Verification Service (eVS)

- The eVS application will remap Bound Printed Matter (Package Services) and Marketing Mail Parcels from on Package Services and Parcel Select Destination Entry (PS Form 3605-R) Part A to USPS Marketing Mail (PS Form 3602-R) Part G and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part G. [REQ 25162](#)
- eVS will update the USPS BlueEarth Carbon Accounting report to support the USPS Marketing Mail Parcels products by calculating the carbon footprint based on the new pricing structure for Heavy Printed Matter effective July 13, 2025. [REQ 25163](#)
- The eVS application for sample and manifest processing will be updated to support USPS Marketing Mail Parcels products on USPS Marketing Mail (PS Form 3602-R) Part G and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part G as shown in the tables below. [REQ 25164](#)

Mail Class	Processing Category	Destination Rate Indicator	Rate Indicator	Zone	Parcel Routing Barcode	Rate
S2	3	N	NP	00	0,1	Machinable Nonpresorted
S2	4	N	NP	00	0,1	Irregular Nonpresorted
S2	5	N	NP	00	0,1	Nonmachinable Nonpresorted

- The eVS application will be updated to include, support, and apply the Service Type Codes for USPS Marketing Mail Heavy Printed Mail. [REQ 25185](#)
- eVS will update the Mis-shipped verifications to support the new pricing structure for Heavy Printed Matter effective July 13, 2025. [REQ 25186](#)

4.6 Eliminate Media and Library Mail Presort Prices

The US Postal Service is considering eliminating 5-Digit and Basic Media/Library Mail Presort price options. The Single Piece rate will continue to be available for Media and Library Mail mailings. Commercial Mailing and postage rules will remain in place with the single piece pricing being the only pricing options.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Impact
- Postage Statement, SKU Changes, and Notice 123: Yes - PS Form 3605-R will be updated to reflect the proposed changes.
- Mail.dat changes: Yes - The mappings will be updated to remove 5-Digit and Basic rates for Media and Library Mail mailings, including updates to validations to reject the removed rates.
- Mail.XML changes: Yes - The mappings will be updated to remove 5-Digit and Basic rates for Media and Library Mail mailings, including updates to validations to reject the removed rates.
- Shipping Services File (SSF) Changes: Yes - The rate ingredient mappings will be updated to remove 5-Digit (5D) and Basic (BA) rates for Media Mail and Library Mail mailings.
- Indicium Creation Record (ICR) File: Yes - The rate ingredient mappings will be updated to remove 5-Digit (5D) and Basic (BA) rates for Media Mail and Library Mail mailings.
- WebTools: Yes - The Rate API will be updated to remove mappings of 5-Digit and Basic rates for Media Mail and Library Mail.
- USPS API: Yes - The Pricing API will be updated to remove mappings of 5-Digit and Basic rates for Media Mail and Library Mail.
- Price Change Type / Product Type: Market Dominant

4.6.1 Mail.dat and Mail.XML

Mail.dat and Mail.XML will be updated to remove the following validations for Media and Library Mail commercial to support the removal of 5-Digit and Basic presort rates for Package Services and Parcel Select Destination Entry (PS Form 3605-R) Part B to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. The validation changes are shown in the tables below. [REQ 25107](#), [REQ 25108](#)

Error Code	Mail.dat Client Error Message	Action	Error Location
1160A	The .cqt Rate Category field provided was {1}; it must contain S = Single Piece, N = Presort (1c, 4c), or G = 5 – Digit when the .mpu Mail Piece Unit – Rate Type field is populated with F = Media or L = Library.	Populate the .cqt Rate Category field with S, N, or G when .mpu Mail Piece Unit – Rate Type field is populated with F or L.	Component record (.cpt)
1160B	The .cqt Rate Category field provided was {1}; it must contain S = Single Piece when the .mpu Mail Piece Unit – Rate Type field is populated with F = Media or L = Library.	Populate the .cqt Rate Category field with S when .mpu Mail Piece Unit – Rate Type field is populated with F or L.	Component record (.cpt)

Table 14 – Mail.dat Media and Library Mail Presort Price Validations to be Removed

Table is for reference only.

4.7 Alaska Bypass Nomenclature Update

The Alaska Bypass Nomenclature will be updated to clarify shipping terms and improve accuracy for mailers. All references to “Zone 1 & 2” in publications and price tables pertaining to Alaska Bypass shipping will be eliminated, as the service only supports Zone 1 volume. This change addresses a common misconception among mailers who might be misled by incorrect terminology. Additionally, the Domestic Mail Manual (DMM) will be revised to reflect these updates, including language adjustments such as replacing “prices are” with “the price is” and removing unnecessary references to zones. The changes will impact the Commercial portion of the Market Dominant product Alaska Bypass and are not applicable to the Competitive product Limited Overland Route (LOR).

4.8 Nonstandard Fee Overhaul

The US Postal Service is considering updating the rules for package Nonstandard Fee structures. These fees are applicable to Priority Mail Express, Priority Mail, USPS Ground Advantage, USPS Connect Local and Parcel Select packages based on the following criteria: The Nonstandard Fee is currently charged for packages meeting the following criteria:

- a) Length greater than 22 inches but less than or equal to 30 inches.
- b) Length greater than 30 inches.
- c) Cubic volume greater than 2 cubic ft.

The Nonstandard Fee will now also include the Package Characteristics as a criterion:

- a) Cylindrical tubes or rolls.
- b) A can, or wooden or metal box.
- c) A parcel containing more than 24 ounces of liquid in glass containers, or 1 gallon or more of liquid in metal or plastic containers (see DMM 601.3.4).
- d) Other (e.g., parcels prepared under DMM sections 601.3.0 and DMM 601.4.0. with contents that may cause the parcel to roll or not maintain the integrity of the packaging during processing)

The assessment for packages may result in following Nonstandard Fees being charged:

- a) Nonstandard Fee for one of two Length criteria (noted above)
- b) Nonstandard Fee for Volume criteria (noted above)
- c) Nonstandard Fee for Package Characteristics criteria (noted above)
- d) Nonstandard Fee Length + Volume
- e) Nonstandard Fee Package Characteristics + Volume

Note: Only the greater of the two: Length vs. Package Characteristics may be assessed per package. The Dimension Noncompliance Fee will reflect the changes to the Nonstandard Fee criteria. This update will include identification of Package Characteristics in the Manifest.

Summary of Application Impacts

- Online Reporting: Yes – The online reports will be updated to include identification of type of assessment for each package.
- Data Feeds: Yes – The IV-MTR data feeds will need to include the identification of type of assessment for each package.
- Postage Statement, SKU Changes, and Notice 123: Yes – Part S will include lines for four Nonstandard Fee types. These Part S lines will be included in the following statements: PS Forms 3600 FC (USPS Ground Advantage), PS Form 3600 PM (Priority Mail Express), PS Form 3605 (Parcel Select), and PS Form 3560 (Priority Mail Express. Note: this form is only automatically generated by the eVS application). Notice 123 will be updated to reflect these changes.
- Mail.dat changes: Yes –

- The SFR Service Codes will be updated as follows:
 - L1 = Nonstandard Fee if Dimension is within first *defined range (inches)'.
 - L2 = Nonstandard Fee if Dimension is within second *defined range (inches)'.
 - L3 = Nonstandard Fee if Package Characteristics is amongst *defined characteristics (list of package characteristics).
 - L4 = Nonstandard Fee if Package Volume is within *defined range (cu. ft.)'. Refer to Appendix A – Nonstandard Fee Updates for detailed information on Nonstandard Fee implementation.
- The CCR Characteristic Type (allowing value of C = Content) and Characteristic will be updated to include the following values:
 - P1 = Parcel Tube or Roll
 - P2 = Parcel Can, Wood or Metal Box
 - P3 = Parcel Liquid
 - P4 = Parcel Packaging and Preparation
- Mail.XML changes: Yes –
- The PostageStatementCreateRequest > ServiceCodes will be updated as follows:
 - L1 = Nonstandard Fee if Dimension is within first *defined range (inches)'.
 - L2 = Nonstandard Fee if Dimension is within second *defined range (inches)'.
 - L3 = Nonstandard Fee if Package Characteristics is amongst *defined characteristics (list of package characteristics).
 - L4 = Nonstandard Fee if Package Volume is within *defined range (cu. ft.)'. Refer to Appendix A – Nonstandard Fee Updates for detailed information on Nonstandard Fee implementation.
- The PostageStatementCreateRequest > CharacteristicContent will be updated to include the following values:
 - P1 = Parcel Tube or Roll
 - P2 = Parcel Can, Wood or Metal Box
 - P3 = Parcel Liquid
 - P4 = Parcel Packaging and Preparation
- Shipping Services File (SSF) Changes: Yes –
- New Extra Service Codes will be issued to identify the updated Nonstandard Fee types. Refer to Appendix A – Nonstandard Fee Updates for detailed information on Nonstandard Fee implementation.
 - ESC 879 = Package Characteristics
 - ESC 886 = Package Characteristics + Package Volume > 2 cu. ft.
- The Processing Category field will include values to determine the Package Characteristics
 - D = Parcel Tube or Roll
 - B = Parcel Can, Wood or Metal Box
 - L = Parcel Liquid
 - P = Parcel Packaging and Preparation
- Indicum Creation Record (ICR) File: Yes –
- New Extra Service Codes will be issued to identify the updated Nonstandard Fee types. Refer to Appendix A – Nonstandard Fee Updates for detailed information on Nonstandard Fee implementation.
 - ESC 879 = Package Characteristics
 - ESC 886 = Package Characteristics + Package Volume > 2 cu. ft.
- The Processing Category field will include values to determine the Package Characteristics

- D = Parcel Tube or Roll
- B = Parcel Can, Wood or Metal Box
- L = Parcel Liquid
- P = Parcel Packaging and Preparation
- WebTools: Yes – Domestic Rate Calculator API will be updated to include the Nonstandard Fee updates. The Rate Response will be updated to include the Nonstandard Fee related information.
- USPS API: Yes – Domestic Prices API will be updated to include the Fees for Nonstandard Fee updates.
- Price Change Type / Product Type: Competitive

4.8.1 Noncompliance Fee Enhancements

eVS will be updated to assess a Noncompliance Fee when packages that meet defined package characteristics criteria are submitted with missing or incorrect package characteristics flag information. If a manifest includes Package Characteristic Fee 879, this fee will be updated to apply to the sample as well.

Note: eVS will charge all applicable Nonstandard and Noncompliance Fees if multiple characteristics criteria are met but not declared. [REQ 25145](#)

4.8.2 Application of Highest Nonstandard Fee

When a Priority Mail, Priority Mail Express, Parcel Select, and USPS Ground Advantage package exceeds 22" in length and also satisfies other package characteristic criteria, eVS will apply the highest applicable Nonstandard Fee.

Note: The over 2 cubic feet Nonstandard fee remains additive. [REQ 25146](#)

4.8.3 Report and Form Updates

- The Sampled Package Summary side-by-side report will be updated to display a flag if a Nonstandard Characteristic Fee is incurred during manifest or sample processing. [REQ 25147](#)
- The Sample Incorrect Packaging Report will be updated to display the reasons for the Nonstandard Characteristic Fee assessment and include Nonstandard flags. Package characteristics criteria will be identified based on the following codes listed in the Key Line field.
 - 01- Tube or Roll
 - 02- Can, Wood or Metal Box
 - 03- Liquids
 - 04- Packaging and Preparation [REQ 25149](#)
- The Variance Report will be updated to include Nonstandard Characteristic Fee details and the flags used to determine fee application. [REQ 25151](#)

4.8.4 Manifest Processing Support

- The eVS application for sample and manifest processing will be updated to add support for Nonstandard Characteristics Fee pricing and processing for Priority Mail Express (PS Form 3560 PME eVS Only) when the package type is a cylindrical tube or roll, can, wooden or metal box, a parcel containing more than 24 ounces of liquid in glass containers, or 1 gallon or more of liquid in metal or plastic containers. EVS will apply the appropriate ESC codes as shown in the tables below. [REQ 25148](#)

Mail Class	Line number	Line Label	ESC	Type
EX	S55	Nonstandard Fee > 22" <= 30"	881	Length > 22" and <= 30"
EX	S56	Nonstandard Fee > 30"	882	Length > 30"
EX	S57	Nonstandard Fee > 2 Cubic Ft	883	Volume > 2 Cubic Ft
EX	S61	Nonstandard Fee – Characteristics	879	Package Characteristics

Table 19 – Priority Mail Express (PS Form 3560 PME eVS Only) Nonstandard Characteristic Fee ESC Codes

Table is for reference only.

- The eVS application for sample and manifest processing will be updated to add support for Nonstandard Characteristics Fee pricing and processing for Priority Mail – Permit Imprint (PS Form 3600 PM) when the package type is a cylindrical tube or roll, can, wooden or metal box, a parcel containing more than 24 ounces of liquid in glass containers, or 1 gallon or more of liquid in metal or plastic containers. EVS will apply the appropriate ESC codes as shown in the tables below. [REQ 25150](#)

Mail Class	Line number	Line Label	ESC	Type
PM	S55	Nonstandard Fee > 22" <= 30"	881	Length > 22" and <= 30"

4.9 Marriage Mail Incentive Extension to High Density Plus Letters and Flats

The US Postal Service is considering extending the Marriage Mail Incentive to High Density Plus Letters and Flats.

Summary of Application Impacts

- Online Reporting: Yes - The existing reports will be updated to reflect the extension of the Marriage Mail Incentive to High Density Plus Letters and Flats and continue to report on Marketing Mail mailings.
- Data Feeds: Yes - The existing data will be updated to reflect the extension of the Marriage Mail Incentive to High Density Plus Letters and Flats and continue to report on Marketing Mail mailings.
- Postage Statement and SKU Changes: Yes - USPS Marketing Mail PS Forms 3602-R/N and Notice 123 will be updated to include new lines for High Density Plus Letters and Flats.
- Mail.dat changes: Yes - The Component Characteristics Record will be updated to include an option for the identification of Marriage Mail for High Density Plus Letters and Flats
- Mail.XML changes: Yes - The PostageStatementCreateRequest content block will be updated to include an option for the identification of Marriage Mail for High Density Plus Letters and Flats.
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.9.1 Mail.dat and Mail.XML

Mail.dat and Mail.XML will be updated to reflect the new discount lines for Marriage Mail 2oz. Incentive to include High Density Plus Letters for USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part C, F as shown in the table below. [REQ 25187](#), [REQ 25190](#)

Part C Updates					
Updated Requested	Line Number	Line Label	Processing Category	Rate Category	Destination Entry
New Line	CXX	None Entry – High Density Plus Automation Letters – Number of Eligible Pieces	LT	0C	N
New Line	CXX	DSCF Entry – High Density Plus Automation Letters – Number of Eligible Pieces	LT	0C	S
New Line	CXX	None Entry – High Density Plus Nonautomation Letters – Number of Eligible Pieces	LT	1C	N
New Line	CXX	DSCF Entry – High Density Plus – Nonautomation Letters – Number of Eligible Pieces	LT	1C	S
Part F Updates					
Updated Requested	Line Number	Line Label	Processing Category	Rate Category	Destination Entry
New Line	FXX	None Entry – High Density Plus Flats – Number of Eligible Pieces	FL	0C	N
New Line	FXX	DSCF Entry – High Density Plus Flats – Number of Eligible Pieces	FL	0C	S

4.9.3 Postal Wizard Updates to Support the Marriage Mail Incentive Extension to High Density Plus Letters and Flats

The *PostalOne!* System Postal Wizard module will be updated to include, support, and apply the new discount lines for Marriage Mail 2oz. Incentive to include High Density Plus Letters for Marketing Mail (PS Form 3602-R) Part C, F and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part C, F effective July 13, 2025 as shown above in tables Table 26 – USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part C for Marriage Mail 2oz. Incentive High Density Letters and Table 27 – USPS Marketing Mail (PS Form 3602-R) and Nonprofit USPS Marketing Mail (PS Form 3602-N) Part F for Marriage Mail 2oz. Incentive High Density Plus Letters. [REQ 25203](#), [REQ 25207](#)

4.10 Updates to USPS Marketing Mail Nonprofit Parcels Dimensions

The US Postal Service is considering publishing the maximum size of a Nonprofit Machinable Parcel in the Mail Classification Schedule and Domestic Mail Manual. This combines the sizes and characteristics of Irregular and Nonmachinable parcels. This will change the stated dimensions of 108 inches length and girth to be 22x18x15 inches and offer prices for Commercial and Nonprofit Origin-entered SCF presorted and nonstandard parcels.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Impact.
- Postage Statement and SKU Changes: Yes - USPS Marketing Mail PS Forms 3602-R/N and Notice 123 will be updated
- Mail.dat changes: No Impact
- Mail.XML changes: No Impact
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.11 Combine Plus One and DML Products

The US Postal Service is considering merging Detached Marketing Labels (DML) and Plus One to enhance the value of this product for mailers and simplify the postal product offering. The combined offering can be mailed with either Flats or Letters via eInduction. Flats can be entered at either SCF or DDU. Flats with an associated Plus One card must be entered at SCF. Letters with associated Plus One Cards can be entered at SCF only. This will provide standardized (larger) size and increased advertising space. Informed Delivery and Informed Visibility will be available when entered at SCF. This enhanced Plus One product will allow all mailers to use a single product on the same footing.

Summary of Application Impacts

- Online Reporting: Yes - Existing reports will continue to report on the updated Plus One data and reflect the removal of DML.
- Data Feeds: Yes - Existing data feeds will be updated to report on the updated Plus One data.
- Postage Statement and SKU Changes: Yes - PS Forms 3602-R/N, Notice 123 and SKUs will be updated to remove DML and adjust Plus One for Letters and Flats
- Mail.dat changes: Yes - The core rate tables for Marketing Mail (3602 R/N); and the USPS technical specifications for Mail.dat will be updated.
- Mail.XML changes: Yes - The core rate tables for Marketing Mail (3602 R/N); and the USPS technical specifications for Mail.XML will be updated.
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.12 2026 Mailing Promotions

The US Postal Service is considering repeating four promotions and two add-ons from 2025, with the potential to introduce a new Catalog promotion. The repeating promotions would include Tactile Sensory & Interactive, Continuous Contact, Integrated Technology, and First-Class Mail Advertising. The add-ons would include Informed Delivery and Sustainability. In addition to the promotions, the US Postal Service is considering improving testing processes for promotions and automating the access request process for mailers to gain access to the Mailing Promotions Portal (MPP).

Summary of Application Impacts

- Online Reporting: Yes - The existing reports will continue to report on the promotions data.

- Data Feeds: Yes - The data feeds available via IV-MTR will include promotions data.
- Postage Statement and SKU Changes: No Impact
- Mail.dat changes: No Impact
- Mail.XML changes: No Impact
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.13 Sealing Ground Advantage Commercial from Inspection & Permitting PII Contents

The US Postal Service is considering changing the MCS to seal Ground Advantage Commercial against inspection to permit contents with PII.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Impact
- Postage Statement and SKU Changes: No Impact
- Mail.dat changes: No Impact
- Mail.XML changes: No Impact
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Competitive

4.14 2026 Mail Growth Incentives

The US Postal Service is considering offering the Mail Growth Incentives as ongoing incentives in CY 2026, with enhancements leveraging lessons learned from the CY 2024 incentives to improve incentive management and customer experience. The enhancements include, but are not limited to, changing the baseline period to the calendar year before the actual performance period (CY2025 for Mail Growth Incentive 2026); improving reporting to provide greater visibility into credit usage for customers, MSPs and the USPS Program Office; and streamlining USPS Program Office management.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Impact
- Postage Statement and SKU Changes: No Impact
- Mail.dat changes: No Impact
- Mail.XML changes: No Impact
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.15 SCF Pallet discount for First-Class mailpieces (Commercial Cards, Letters, and Flats)

The US Postal Service is considering changing Sectional Center Facility pallet discounts for First Class mail cards, letters and flats to mirror the current SCF Pallet discounts for Marketing Mail. To support this initiative, Mailing Standards will develop preparation rules and update the DMM to support the preparation of containerized FCM trays. Palletized mail may be entered at origin or at the destination facility, though all will pay origin prices and be cross docked to transportation further into the USPS network.

Summary of Application Impacts

- Online Reporting: Yes - Existing reports will be updated to report the SCF Pallet card, letter, and flat discounts for FCM data.
- Data Feeds: Yes - Existing data will be updated to include the SCF Pallet discount for FCM.
- Postage Statement and SKU Changes: Yes - PS Form 3600-FCM and Notice 123 will be updated to support the SCF pallet discount.
- Mail.dat changes: Yes - Core rate table, validations and USPS technical specification update to support the SCF pallet discount for FCM.
- Mail.XML changes: Yes - Core rate table, validations and the USPS technical specification will be updated to support the SCF pallet discount for FCM.
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.15.1 Mail.dat and Mail.XML

Mail.dat and Mail.XML will be updated to reflect the addition of the SCF Pallet Discount for postcards, letters, and flats for First-Class Mail and USPS Ground Advantage (PS Form 3600 FCM) Parts A, B to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. The changes are shown in the tables below. [REQ 25188](#), [REQ 25189](#)

Table is for reference only.

4.15.3 Postage Statements

The postage statement downloads for First-Class Mail and USPS Ground Advantage (PS Form 3600 FCM) Parts A, B will be updated to reflect the addition of the SCF Pallet Discount to accommodate the pricing and structural changes the US Postal Service will implement effective July 13, 2025. [REQ 24124](#)

4.16 Eliminate Bundling for FCM Flats Prepared in Tubs

The US Postal Service is considering eliminating First-Class Mail Flats bundles in tubs and only allowing loose pieces. This will ensure that the presort level and pricing for First-Class Mail Flats align with the presort level of the tubs. Each First-Class Mail Flat tub will be required to contain a minimum of 50 pieces.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Imp
- Postage Statement and SKU Changes: No Impact
- Mail.dat changes: Yes - Validations will be updated to reflect the elimination of bundles in tubs and only allow loose pieces.
- Mail.XML changes: Yes - Validations will be updated to reflect the elimination of bundles in tubs and only allow loose pieces.
- Shipping Services File (SSF) Changes: No Impact
- Indicum Creation Record (ICR) File: No Impact
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Market Dominant

4.17 Eliminate DNDC Discount for Marketing Mail, Periodicals and Bound Printed Matter

The US Postal Service is considering eliminating mail entry at NDCs along with the DNDC discount. Mailers who currently prepare NDC volume and claim the DNDC discount will be offered three options in the future state – mixed pallets for Origin Entry (no entry discount); DSCF entry discount; or DDU entry discount.

Summary of Application Impacts

- Online Reporting: Yes - Existing reports will be updated to support elimination of the DNDC discounts for

Marketing Mail, Periodicals, and Package Services (BPM) data for letters, flats, and parcels.

- Data Feeds: Yes - Existing data feeds will be updated to support elimination of the DNDC Discount for Marketing Mail, Periodicals, and Package Services (BPM) data.
- Postage Statement and SKU Changes: Yes - PS Forms 3605-R, 3602R/N, and 3541 will be updated to reflect the elimination of the DNDC Discount.
- Mail.dat changes: Yes - The core rate tables for Marketing Mail (3602 R/N), Periodicals (3541), and Package Services (3605-R) and validations; and the USPS technical specifications for Mail.dat will be updated.
- Mail.XML changes: Yes - The core rates tables for Marketing Mail (3602 R/N), Periodicals (3541), and Package Services (3605-R) and validations; and the USPS technical specifications for Mail.XML will be updated.
- Shipping Services File (SSF) Changes: Yes – The SSF will be updated to remove DNDC references for containers; and the rate ingredients associated to the DNDC discount will be updated.
- Indicum Creation Record (ICR) File: Yes – The ICR will be updated to remove DNDC references for containers; and the rate ingredients associated to the DNDC discount will be updated.
- WebTools: Yes – The Rate API will be updated to remove mappings of DNDC Discount type from Marketing Mail, Periodicals, and Package Services (BPM).
- USPS API: Yes - The Pricing API will be updated to remove the mappings of DNDC Discount type from Marketing Mail, Periodicals, and Package Services (BPM).
- Price Change Type / Product Type: Market Dominant

4.18 Updates to Pallet Priority Mail Open & Distribute (PPMOD) Service – Single Label Solution

The eVS application for manifest processing will be updated to support Service Type Code (STC) 126 for Pallet PMOD containers. eVS will continue to support STC 123 for PMOD. [REQ 25169](#)

4.19 Updates to PMOD & PMEOD Services – Sack Preparation and Processing

The US Postal Service is considering eliminating the opening of sacks at mail processing and allowing mailable hazardous materials in sacks. To update the Priority Mail Open and Distribute (PMOD) Service to eliminate open & distribute sacks from being opened in Mail Processing facilities, we will update the DMM (and other documents) to state that open & distribute sacks must be prepared as 5-digit only. To eliminate hazmat from PMOD and Priority Mail Express Open and Distribute (PMEOD) open & distribute sacks, we will update the DMM (and other documents) to state that open & distribute sacks may not contain hazmat.

Summary of Application Impacts

- Online Reporting: No Impact
- Data Feeds: No Impact
- Postage Statement and SKU Changes: No Impact
- Mail.dat changes: No Impact
- Mail.XML changes: No Impact
- Shipping Services File (SSF) Changes: Yes – No impact on file format, but validation logic will be updated to support the proposed changes.
- Indicum Creation Record (ICR) File: Yes - No impact on file format, but validation logic will be updated to support the proposed changes.
- WebTools: No Impact
- USPS API: No Impact
- Price Change Type / Product Type: Competitive

The eVS application for manifest processing will be updated to support and apply pricing for PMOD and PMEOD as shown in the table below. [REQ 25168](#)

Table 40 - Current and Future PMOD and PMEOD Rate Ingredients

Table is for reference only.

4.20 Add 5D/Direct Container and SCF-Pallet discounts to Marketing Mail Heavy Printed Matter

The US Postal Service is considering offering new discounts for Marketing Mail Heavy Printed Matter, including a 5D/Direct Container Discount for Carrier Route Heavy Printed Matter (excluding non-presorted and presorted rates), a SCF Pallet Discount for both Presorted and Carrier Route Heavy Printed Matter (non-presorted rates excluded), and a Catalog Incentive applicable to Presorted, Carrier Route, and non-presorted Heavy Printed Matter. These changes will be detailed in applicable postage statements, Notice 123, pricing tables, and other related documents. Additionally, RPW reports will be updated to automatically reflect the volume and revenue data associated with these discounts, ensuring clear visibility at the price cell level for Marketing Mail shipments.

4.21 Eliminating DNDC Pricing for Parcel Select

The US Postal Service is considering eliminating the pricing for Parcel Select DNDC to streamline pricing options available to customers.

4.21.1 Electronic Verification Service (eVS)

- The eVS application for sample and manifest processing will be updated to reflect the removal of DNDC entry pricing for Nonstandard Fees for Package Services and Parcel Select Destination Entry (PS Form 3605-R) Part S as shown in the tables below. [REQ 25177](#)
