

MAPS PostalOne® TMS

§ Mail Automation, Inc.

CATEGORY: Air/Surface Tray Tagging Systems

PRODUCT: MAPS PostalOne® TMS

COMPANY: Mail Automation, Inc., 308 Baltimore-Somerset Rd, Baltimore, OH 43105. Contact: Scott 800-952-5339 or Bob (740) 400-0030. Email: Scott.Spellacy@MailAutomationInc.com

DESCRIPTION: The MAPS PostalOne® System provides the capability to scan bar code labels, weigh mail trays and tubs, and print Dispatch & Receipt (D&R) labels for manual or automatic application (depending on configuration). D&R labels are created based on information exchanges through a USPS Transaction Concentrator (TC). PostalOne is designed for reliability and ease of use, while maintaining a low cost. Take control of your tray handling with an automated system that makes it all easy: the MAPS PostalOne tray management system provides automatic first-class mail dispatch. USPS PostalOne-certified system weighs, scans, and labels each tray for air or ground shipment induction. The system verifies each tray label, assigns each tray to a dispatch lane, and routes trays to their correct destination.

FEATURES: Integrated technologies within the MAPS system allow it to automatically capture the weight of a tray, scan its destination, transmit that information to a carrier, and book passage. The system then prints and applies a destination and routing (D&R) label and confirms the information. If all is correct, the system sends the tray to the bander. Should an error occur, the tray is routed to a separate line for further processing. The MAPS system is certified to meet USPS standards, and the software is easy to use, yet powerful enough to handle all your mailing needs.

SYSTEM OPTIONS: Choose from three computer controlled system options, including: 1) Fully automated in-line system; 2) Semi-automated system; 3) Tabletop system.

ABOUT MAI: Mail Automation, Inc. is a full-service Systems Integrator specializing in commercial mailing. The members of our executive and management team have over 140 years experience in providing specialized solutions for mailing, scanning, and tray sorting systems. Our focus is to provide customized solutions for mailing and distribution.

§ Engineering Innovation Inc.

CATEGORY: Analytics Software

PRODUCT: Apian Sort™ Engine

COMPANY: Engineering Innovation Inc. (Eii), 3601 Sagamore Parkway N, Suite Eii, Lafayette, IN 47904 Contact: sales@eii-online.com Phone: (800) 350-6450

DESCRIPTION: The Apian Sort Letter Sorting Engine by Engineering Innovation, Inc. extends the lifespan of your letter sorters while protecting your investment. Instead of replacing equipment at steep costs, Apian Sort modernizes your existing infrastructure through secure, cloud-based technology. This solution keeps machines relevant and reliable, reduces downtime, and optimizes throughput. Apian Sort offers a comprehensive solution that blends machine control and cloud connectivity into one platform. The HivePilot Machine Controller provides embedded precision and reliability on-site, while the HiveLink Portal ensures secure access to sort profiles, customer information, and performance data from anywhere. By combining robust local control with centralized cloud management, Apian Sort eliminates disruptions, minimizes errors, and ensures smooth operations across multiple sites and machines simultaneously.

FEATURES: Apian Sort supports digital commingle with Mail.dat files, streamlines reporting and USPS form creation, and enables multi-site management. Users benefit from seamless integration into current systems, CSA file support for tray tags and pallet placards, and automatic scheming updates. The system processes Automated First Class Letters, Machinable First Class Letters, Single Piece First Class Letters, First Class Postcards, First Class Flats, and Marketing Mail/Nonprofit Mail for Letters & Flats. By minimizing second-pass sorting, preserving equipment life, and providing smart investment protection, Apian Sort helps mail operations achieve higher throughput while avoiding unnecessary capital expenses.

CONTACT: For more information call 800-350-6450, email sales@eii-online.com, or Visit www.ApianSort.com. Update compliance and direct editing of Mail.dat files.

§ Pitney Bowes, Inc.

CATEGORY: Analytics and Accounting Software

PRODUCT: PitneyAnalytics®

COMPANY: Pitney Bowes Inc., 27 Waterview Drive, Shelton CT 06484. Contact: PitneyBowes.com/omg

DESCRIPTION: PitneyAnalytics® is a secure, cloud-based solution that consolidates data across your shipping, mailing, receiving and distribution operations. It provides proactive insights to quickly improve operational efficiency across your organization, regardless of user, carrier or location. The solution also centralizes your postal and carrier spend as well as usage activity across devices, solutions, locations and a remote workforce. While providing a near real time high-level view of your organization's KPIs, activity and spend, PitneyAnalytics goes one step further and makes recommendations on how to achieve cost savings based on your data.
