

Digital Mail Systems

Tritex Compact Elite

tion or email delivery. The small footprint Compact Elite features large scale imaging in a compact machine size. The Compact Elite is less than 8 feet in length. The machine uses standard electrical power 115 volt AC. The Compact Elite interfaces with Tritex's Email Delivery System and Tritex Rule Editor Database Management Software. The Compact Series can be fitted with an ink jet printer or any number of Tritex sort bins or optional features. The standard machine has two sort bins for sorting processed items or rejected pieces.

INBOUND SORTING SYSTEMS: No matter how you flip it, Tritex equipment can read it, sort it, store it and track it. The Tritex sorting machine is designed to read the address of all mail pieces regardless of what direction they are fed into our machine. Tritex has the only mail processing equipment that can read envelopes, magazines, newspapers, poly-wrapped pieces in any direction in a 12" x 17" viewing area, without adjustments, even on the front and backside of the mail piece! The recognition software captures an image of the entire document in grayscale (other reading applications can be integrated if desired). The image can then be stored and tracked.

NOMAD - HIGH RESOLUTION PORTABLE DOCUMENT SCANNER: The Nomad is portable, plugs into 120V AC receptacles, and can read any type of document or envelope. It handles odd shapes such as handwritten notes, forms, or letters and any thickness ranging from single sheets to magazines. The high resolution 300 dpi imaging creates TIFF, PEG or PDF files in black & white or color. The workflow of all Tritex document scanning machines is highly configurable and integrates well with third-party software applications. While Tritex includes Doc-U-Search – our own leading-edge storage and retrieval software – the operator can select alternate applications to perform image capture, post-scan processing or document indexing and storage.

DIGITAL EMAIL DELIVERY: An ideal solution for when you are out of the office and need to retrieve your mail. The Tritex Digital Email System is designed to deliver email notification of inbound mail to its recipients, as it is received each day, for internal company-mail distribution. You can also use the Tritex Digital Email System to deliver by email scanned images of contents of any mail piece.

FEATURES: The Tritex Digital Email System: 1) Scans and captures images of both sides of an incoming mail piece; 2) Stores each image in a TIFF, JPEG, or PDF file; 3) Labels each image with the time and date received; 4) Labels each image with a unique identification number.

CONTACT: To learn more about Tritex call 302-223-4065 or visit www.tritek.com or email solutions@tritek.com.

Divert Systems

§ Postmatic

CATEGORY: Divert Systems

PRODUCT: Postmatic Divert Bases

COMPANY: Postmatic, 711 Weaver Blvd, Anoka, MN 55303 Phone: (763)-784-6046. Email: info@postmatic.net Contact: Sales. Web: www.postmatic.net.

Document Software

§ Pitney Bowes Inc.

CATEGORY: Document Software

PRODUCT: ConnectRight® Mailer; Relay Unify; Mailstream On Demand

COMPANY: Pitney Bowes Inc., 27 Waterview Drive, Shelton CT 06484. Contact: PitneyBowes.com/omg.

RELAY INTEGRITY PRO: An on-premise software application for print ready PDFs where mail piece integrity is required without a need for document composition and/or complex workflows. Combine this solution

Pitney Bowes Relay Integrity Pro

with ConnectRight Mailer for postal coding and presorting to further control costs. Solution works seamlessly with Pitney Bowes Relay Series Inserters. Save Time, Control Costs and Reduce Risk.

RELAY UNIFY: A robust, versatile, all-in-one CCM software solution which is suitable for organizations of any size. This platform enables the creation of unique, repeatable printed or electronic documents and workflow solutions without the need for custom codes. Relay Unify allows for a complete end-to-end CCM workflow to reduce overall development and programming time for users.

MAILSTREAM ON DEMAND: Gain peace of mind knowing your mail will always go out when it needs to with Mailstream On Demand. Our print and mailing outsourcing service provides flexibility, security, and cost control so you can concentrate on growing your business and not the mail.

CONNECTRIGHT® MAILER: ConnectRight Mailer makes it easy to get your mail delivered to the right address and takes the stress out of pre-

Document Software

paring the necessary USPS reports, all while helping you send your mailings at the best postage rates possible. ConnectRight Mailer allows you to validate addresses, including standardize address formats, process unlimited move/updates, correct the spelling errors and add missing postal data and IMb™. Our mail management software integrates powerful data validation capabilities with USPS® CASS Certified Address & Data Quality, NCOA updates and presort services in a simple, intuitive application. Now, with one powerful solution, you can: Process mailing lists with a single click, drag and drop your mail list for hands-off processing and obtain the best postage rates.

§ QUADIENT

CATEGORY: Document Software

PRODUCT: Quadient Impress Platform, YayPay by Quadient and Quadient Inspire Software

COMPANY: QUADIENT, 478 Wheelers Farms Rd., Milford, CT 06461. Phone: 800-636-7678.

QUADIENT OUTPUT MANAGEMENT: Quadient's output management solutions allow users to manage important customer communications easily and securely, while providing a pathway for businesses to communicate according to their customer's delivery preference and thus easily evolve from paper-based communications to digital delivery. The Output Management portfolio of on-premise software and cloud-based solutions offered by Quadient, automates and enhances the preparation, processing, output and delivery of business-critical communications through the Quadient Impress Platform.

QUADIENT ACCOUNTS RECEIVABLE: Take your business-critical communications one step further by adding accounts receivable automation technology with YayPay by Quadient for invoices, cash collections and disputes.

Quadient Impress Platform: A multi-channel outbound document automation platform that automates the sending of business-critical customer communications. The Impress Platform works to increase operational efficiencies and centralize the document preparation process, helping to ensure that content is sent to the right person, at the right time through the customer's preferred channel. Users can add specific marketing messages to their business-critical customer communications and incorporate business rules such as merging multiple documents into a single envelope, facilitating additional marketing opportunities as well as savings on printing and postal costs. Four core applications operate on the award-winning Quadient Impress platform, providing businesses the highest level of performance and scalability, and ability to produce mail physically in-house, outsource, or digitally. Within the Impress Platform each application can work independently or seamlessly integrate with each other for maximum flexibility. The Quadient Impress Platform also integrates with unique and powerful Web-based plug-ins that enable businesses to save postage with presort capabilities, ensure the integrity of their customer contact data, centralize and track the processing of Certified Mail, manage their recipients' delivery preference and more.

YayPay by Quadient: A smart accounts receivables platform that helps B2B companies improve their customer experience via their credit and collection communications processes. YayPay SaaS platform automates routine invoice reminders, credit and cash application tasks, and gives finance teams visibility and control by connecting the AR data from ERP, CRM, email and credit in one central system. In-

Document Printing Systems

stead of sticky notes, one-off emails and spreadsheets, YayPay reduces the highly manual process of managing the AR process with simple workflows. YayPay improves cash flow predictability and facilitates collection of payments via a self-serve portal for electronic invoice review and payments.

INSPIRE: Inspire is an enterprise communication platform enabling your business to deliver relevant personalized messages, at the right time through the preferred channel. It includes a high performance document composition engine on a flexible platform that integrates with almost any data source. Inspire's efficient template design is optimized for multi-channel communication and boasts robust reporting capabilities to track production in real time.

CONTACT: For more information, call 800-636-7678 or click Quadient.com.

§ Eastman Kodak Company

CATEGORY: Document Printing Systems

PRODUCT: Kodak Prosper Digital Printers

COMPANY: Eastman Kodak Company, 3000 Research Blvd, Dayton, OH 45420. Email: randy.vandagriff@kodak.com Tele: 937-259-3000. Web: www.kodak.com

See Kodak's listing in the Address/Barcode Printers section.

KODAK PROSPER ULTRA 520 PRESS: This press delivers the quality and output you'd expect from offset—at inkjet prices. It offers: Economical consumables; Unrivalled productivity; The flexibility of variable print; Perfect for commercial printers producing direct mailers, inserts, catalogs and books. The ULTRA 520's Intelligent Print System technology constantly evaluates press operation to ensure exceptional output quality and efficient throughput. The PROSPER ULTRA 520 is a compact unit that produces up to 62.4 million top quality pages per month. — Built with open architecture interfaces, it integrates with your existing set-up, whether that's 2-up workflow, off-line, near-line, or dedicated in-line finishing equipment.

KODAK PROSPER 7000 TURBO PRESS: The 7000 Turbo Press delivers industry-leading speeds of 410 mpm (1,345 fpm), nearly 35% faster than its nearest competitor. When time is of the essence, the PROSPER 7000 Turbo Press's unique Turbo mode is specifically geared to handle big jobs, lightning fast: a blazing 5,523 A4s ppm. With less time needed on press for each job, the PROSPER 7000 Turbo Press enables you to take on bigger, longer, more ambitious jobs than ever before — over 200 million A4 pages per month. The PROSPER 7000 Turbo Press has been specifically designed to handle high capacity runs at super-fast speeds with minimal downtime. The KODAK PROSPER 7000 Turbo Press features a robust and reliable design optimized for productivity across a wide range of papers.

KODAK PROSPER 6000C PRESS: This press resets printing industry standards, with an unmatched combination of outstanding quality, productivity, and compelling economics. It's well suited for the demands of commercial print operations that produce direct mailers, inserts, catalogs, books and newspapers with very high ink coverage. It provides full-color 4-over-4 perfecting output with a print width of up to 62.1 cm (24.45") at speeds up to 300 mpm (1,000 fpm).
