

Rollem's Mailstream Direct Mail Finishing System

Rollem's Dutch Cut Document Finishing System

tions, each section is delivered into a final cutting section with dual delivery into bins. Dutch cut automates document finishing for off the charts efficiency. Learn more about Dutch Cut finishing at <https://www.rollemusa.com/automation-integrations/>

INSIGNIA DIE CUTTERS: The Insignia Series of die cutter is a new class of sheet-fed rotary die cutter, ideal for producing labels, packaging, and unique mail applications. The machine is capable of die-cutting, kiss-cutting, perforating, scoring, and cut-scoring on a range of papers, plastics, magnetic material, PVC, styrene and polypropylenes up to 24 pt. in thickness. Key features include run speeds up to 5,000 sph, ease of operation and quick changeover. Insignia is available in two sizes, Insignia5 handles digital sheet sizes 20x15", and Insignia7 handles B2 size 24x30" sheets. Insignia is ideal for promotional products, garment and industrial tags and labels, shaped direct mail, photo products, pocket folders, folded cartons, stickers, and the list goes on. The flexo-magnetic dies are a simple change over from job to job and the machine is easy to operate. To meet varying application requirements, Insignia is available in either single or dual magnetic cylinder configurations.
