stacker at speeds up to 15,000 pieces per hour. It can help you create mailings to raise new service and product awareness, build customer loyalty, enhance brand recognition, and so much more quickly and easily. This folding system includes a 500 sheet feeder allowing for 7 different folds at multiple speeds (adjustable while running), and a backlit LCD control panel. It can store multiple jobs, load on the fly and has optional cross-folding and high-capacity stacker capabilities. With the optional cross-folding kit, you can create a second fold perpendicular to the first. This makes it easy to fold large format, complex brochures and newsletters.

*Rollem's Mailstream Direct Mail Finishing System*

## § Rollem International

**CATEGORY:** Folding Machines

**PRODUCT:** Mailstream Direct Mail Finishing System

**COMPANY:** Rollem International, 1650 S Lewis St., Anaheim, CA 92805-6413. Phone: 800-272-4381. Web: [www.rollemusa.com/mail](http://www.rollemusa.com/mail).

**MAILSTREAM:** Print, finish, and mail 10-in-one. Mailstream, a new direct mail finishing system, converts press sheets to finished mail products while maintaining zip code order. Apply 10 processes in one operation including hot, cold and fugitive glue; tear-off coupons; tip-on cards; trimming, slitting, scoring, pattern-perforations, and scratch-off labels. Mail integrity is maintained creating folded, glued products ready for delivery to mail bins. Glue closures meet USPS requirements and eliminate need for wafer seals. In-line and near-Line configurations are available.

See *Rollem in Die-Cutting, Document Processing, and Inserter sections.*

## Incoming Mail Sorters

### § NPI

**CATEGORY:** Incoming Mail Systems

**PRODUCT:** NPI's Incoming Automated Mail Sorters

**COMPANY:** NPI, 14901 Trinity Blvd, Fort Worth, TX 76155. Key Contact: Marco Oropeza. Phone: 888-821-SORT.

**DESCRIPTION:** NPI has been designing leading-edge mail sorters for over 35 years, with over 1,000 machines installed worldwide. NPI sets the standard for affordable, high quality, low maintenance machines, while meeting the highest expectations in automated mail sorting with the industry's most compact design. Our exclusive technology can be configured into a number of modular designs to meet specific customer requirements for labor, floor space and cost. NPI's products include Parcel, Letter and Flat (MLOCR/BCR) sorters with customizable options that's supported by 24/7 Service Support.

**CONTACT:** For more information, call 888-821-SORT or email [sales@npisorters.com](mailto:sales@npisorters.com).

### § Tritek Technologies, Inc.

**CATEGORY:** Incoming Mail Sorters

**PRODUCT:** Tritek Sorting & Processing Equipment

**COMPANY:** Tritek Technologies, Inc., 1-B Medori Boulevard, Wilmington, DE 19801. Contact: Sales Email: [solutions@tritek.com](mailto:solutions@tritek.com) Phone: 302-223-4065.

**INBOUND SORTING SYSTEMS:** No matter how you flip it, Tritek equipment can read it, sort it, store it and track it. The Tritek sorting machine is designed to read the address of all mail pieces regardless of what direction they are fed into our machine. Tritek has the only mail processing equipment that can read envelopes, magazines, newspapers, poly-wrapped pieces in any direction in a 12 by 17 inch viewing area, without adjustments, even on the front and back-side of the mail piece! The recognition software captures an image of the entire document in grayscale. (Other reading applications can be integrated if desired.) The image can then be stored and tracked.

*Read Address From Any Direction*

**INBOUND SORTING FEATURES:** Tritek's patented transport is the only machine that can process postcards, letters, flats and newspapers and sort them into your custom configuration of bins - up to 1024. Reads OCR, barcodes, type, script font and handwritten addresses. All Tritek sorters feature advanced Optical Character Recognition and barcode printing capabilities which enable our systems to automate even handwritten addresses and to print the destination bar code on the mail piece during the sorting process. Whether your inbound mail address is typed or handwritten, Tritek's sorting machine can easily read and sort for you! Tritek advanced "read technology" sorters interpret script fonts and handwritten addresses.

**TRITEK COMPACT:** The Tritek Compact Series Equipment features a small footprint size for letter mail, flats and document processing. The compact design allows for large imaging over 300 dots per inch scanned omni directionally. Tritek's 12 by 17 inch scan area enables entire 8.5 by

**Tritek Compact Sorting System**

emailed whenever required. The mail piece is duplex scanned front and back side as well as documents.

**COMPACT ELITE:** The Compact Elite is designed for email processing and imaging. The scan area enables complete front and back side imaging. These images are stored, time and date stamped for records retention or email delivery.

**Tritek Compact Elite Sorter**

Compact Series can be fitted with an ink jet printer or any number of Tritek sort bins or optional features. The standard machine has two sort bins for sorting processed items or rejected pieces.

**DIGITAL EMAIL DELIVERY:** An ideal solution for when you are out of the office and need to retrieve your mail. The Tritek Digital Email System is designed to deliver email notification of inbound mail to its recipients, as it is received each day, for internal company-mail distribution. You can also use the Tritek Digital Email System to deliver by email scanned images of contents of any mail piece.

**DIGITAL EMAIL DELIVERY FEATURES:** The Tritek Digital Email System: 1) Scans and captures images of both sides of an incoming mail piece; 2) Stores each image in a TIFF, JPEG, or PDF file; 3) Labels each image with the time and date received; 4) Labels each image with a unique identification number. The Tritek Digital Email System is available in various configurations and depending on the configuration, a Tritek Digital Email System can either sort the mail into a holding tub for future mail piece scanning or automatically sort the mail for in-house mail carrier delivery.

**TRITEK ACE PARCEL/FLATS/ LETTER PROCESSING:** The Tritek ACE workstation is designed to process parcels, flats and letters. ACE Work Station operation is simple, fast, and reliable. Operators place

11 inch documents to be scanned. It also scans legal sized documents. The Compact series is designed to time and date stamp documents and mail. It is Sarbanes Oxley compliant - a record is created and stored to a file. These records can then be searched or

an item on the platform while an overhead camera reads the mail piece which is displayed on the touch screen computer. After the item is read the operator touches the red print button and a label is printed for that mail item. The weight and postage rate is calculated as the manifest data is stored for USPS discount reporting.

**INCOMING MAIL/PARCELS:** 1) Database match and look-up; 2) Label printing with delivery information; 3) Barcoding for tracking of mail pieces or parcels; 4) Return mail processing; 5) Mail forwarding; 6) Research mail for generically addressed mail pieces; 7) Touch screen computer for easy operation.

**TRITEK RULE EDITOR SOFTWARE:** Tritek software allows many options to sort incoming mail. This software allows for greater customization of sort plan and OCR reading priorities. When processing by names only, the Tritek system will locate an address (in any orientation), and search for all names in the names database.

**CORRECT ELECT VOTE-BY-MAIL:** Tritek Correct Elect Vote-by-Mail Equipment is the solution for the processing of Vote-by-Mail ballots envelopes. Voters' signatures are detected and using barcodes are verified against a database of registered voters. Tritek offers its Correct Elect Vote-by-Mail Processing Systems in three configurations: 1) An inbound sorter to support up to 1024 bins, optional overhead mail tray racks and other sorting options; 2) A portable system; 3) A desktop unit. These machines include real-time imaging, storing, printing of time and date in addition to properly sorting votes into correct precincts. Patented feeder technology allows smooth operations over a variety of envelope types.

**CONTACT:** To learn more about Tritek call 302-223-4065 or visit [www.tritek.com](http://www.tritek.com) or email [solutions@tritek.com](mailto:solutions@tritek.com).

**Ink**

## § Eastman Kodak Company

**CATEGORY:** Ink

**PRODUCT:** Kodak Proprietary Inks:

**COMPANY:** Eastman Kodak Company, 3000 Research Blvd, Dayton, OH 45420. Email: [randy.vandagriff@kodak.com](mailto:randy.vandagriff@kodak.com) Tele: 937-259-3000.

**DESCRIPTION:** Versamark Systems deliver a complete imprinting solution, which includes Kodak's proprietary inkjet inks that drive a low

**Kodak Proprietary Inks**

cost of ownership. The water-based, eco-friendly dye formulations produce strong print quality and are available in black, a range of spot colors, and specialty varieties for security applications. For digital printing, KODACHROME Inks produce sharp text, images and graphics, and uniform area fills with 100% variable data content at full press speed. To further improve quality, nano-particulate pigment KODAK EKTACOLOR Inks are matched to the press's imaging system. The result is print quality that approaches offset on a wide range of substrates, with the unique flexibility and value of variable printing—all at high throughput speeds.
