COMPETITIVE PRICE CHANGES

Docket No. CP2026-4

**USPS NOTICE OF TIME-LIMITED CHANGES  
IN RATES OF GENERAL APPLICABILITY  
FOR COMPETITIVE PRODUCTS**  
(March 25, 2026)

Pursuant to 39 C.F.R. § 3035.102, the United States Postal Service hereby gives notice of time-limited changes in rates of general applicability for competitive products. Specifically, the Postal Service will be increasing prices for certain domestic competitive products, namely, Priority Mail Express, Priority Mail, USPS Ground Advantage, and Parcel Select. No price changes are being made to Special Services or International competitive products. The new prices will take effect on April 26, 2026, and will roll back to approved levels on January 17, 2027.

Prices for the Postal Service's domestic competitive shipping products will increase eight percent across the board during this limited time period. Traditionally, the Postal Service has only sought to utilize a time-limited price increase such as this during the peak shipping season (October through December). Today's decision to initiate this TLPC prior to the peak shipping season is intended to address changing market conditions concerning transportation costs, including the increasing price of fuel and contracted transportation, and to begin better aligning the Postal Service with standard industry practice when it comes to addressing such costs. As it stands today,

these market conditions are expected to continue throughout the coming months. However, unlike our competitors in the shipping industry, the Postal Service does not currently apply fuel or other transportation-related surcharges, meaning that while our competitors in the shipping industry have been able to address changing conditions over time by adjusting their own fees or surcharges, we have not been able to, despite the fact that such conditions also have a material impact on our finances. Given the already tenuous nature of the Postal Service's current financial position,<sup>1</sup> it is imperative for the Postal Service to act in response to these changed circumstances and to align with industry practice. The eight percent increase helps to address these circumstances and is also well below the published surcharges of our competitors for fuel alone.<sup>2</sup> The Postal Service intends this transportation-related time-limited price change to be a bridge to the eventual implementation of a permanent mechanism to reflect changes in market conditions in our competitive prices, consistent with industry practice.

In accordance with Rule 3035.102(b), this Notice provides the Governors' Decision establishing the changes, including a statement of explanation and justification, and certification of the vote. Attached to the Governors' Decision is a schedule showing new prices incorporated into a draft of the revisions to the competitive products section of the Mail Classification Schedule. Also attached is a schedule

showing current prices that shall be restored effective January 17, 2027, unless the Governors take further action to adjust prices.

Also being filed herewith is a non-public annex showing FY 2026 projected volumes, revenues, attributable costs, contribution, and cost coverage for each affected product. Additionally, in accordance with Order No. 1062, the Postal Service is filing supporting forecast data and price adjustment calculations to reflect the time-limited price change. No new products or price categories are being introduced with this filing. An application for non-public treatment of this material is attached to this pleading, along with a redacted, public version of the annex. Redacted versions of certain supporting materials are also being filed.

Given the critical importance of this initiative to the Postal Service's finances, and in order to provide our customers with adequate time to program these new rates, we respectfully request that the Commission complete its review of this TLPC no later than April 20, 2026.

The Governors' Decision and record of proceedings will be published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2).

Respectfully submitted,

UNITED STATES POSTAL SERVICE

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON CHANGES  
IN RATES OF GENERAL APPLICABILITY FOR COMPETITIVE PRODUCTS (GOVERNORS'  
DECISION NO. 26-1)**

---

March 24, 2026

**STATEMENT OF EXPLANATION AND JUSTIFICATION**

Pursuant to authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices of general applicability for certain domestic shipping services (competitive products), and concurrent classification changes to effectuate the new prices. These prices shall be in effect at 12:00am CDT on April 26, 2026, until 12:00am CST on January 17, 2027, at which time prices will be restored to approved levels. The changes are described generally below, with a detailed description of the changes in the attachment. The attachment includes the draft Mail Classification Schedule sections with the new prices that will take effect on April 26 displayed in the price charts, as well as the Mail Classification Schedule sections with the prices that will be restored on January 17, 2027, unless the Governors take further action to adjust prices.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3035.107(c), requires competitive products collectively to contribute a minimum of 8.0 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. § 3035.102.

## **I. Domestic Products**

### **A. Priority Mail Express**

Overall, the Priority Mail Express price change represents a 8.0 percent increase. The existing structure of zoned Retail and Commercial price categories is maintained. Retail prices will increase 8.0 percent on average, while the Commercial price category will increase 8.0 percent on average.

### **B. Priority Mail**

On average, Priority Mail prices will be increased by 8.0 percent. The existing structure of zoned Retail and Commercial price categories is maintained. Retail prices will increase 8.0 percent on average, while the Commercial price category will increase 8.0 percent on average.

### **C. USPS Ground Advantage**

USPS Ground Advantage, introduced in July 2024, is the Postal Service's flagship ground package product. USPS Ground Advantage prices will increase 8.0 percent on average. The existing structure of zoned Retail and Commercial price categories is maintained. Retail prices will increase 8.0 percent on average, while the Commercial price category will increase 8.0 percent on average. The Alaska Limited Overland Routes (LOR) price category will see a 8.0 percent increase.

### **D. Parcel Select**

On average, Parcel Select prices will increase overall by 8.0 percent, with different percentages allocated across weight classes.

No price changes are being made to Special Services or International competitive products.

**ORDER**

The changes in prices set forth herein shall be effective at 12:00 A.M. on April 26, 2026, and will be rolled back to approved levels at 12:00 A.M. on January 17, 2027. We direct the Secretary of the Board of Governors to have this decision published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2), and direct management to file with the Postal Regulatory Commission appropriate notice of these changes.

By The Governors:

Amber F. McReynolds  
Chair, Board of Governors

**UNITED STATES POSTAL SERVICE

*Commercial (Base and Plus) Dimensional Weight*

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

*Commercial (Base and Plus) Dimensional Weight*

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

## **APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS**

In accordance with 39 C.F.R. § 3011.201, the Postal Service hereby applies for non-public treatment of the attributable cost, contribution, and cost coverage data in the unredacted version of the annex to Governors' Decision No. 26-1, as well as the supporting materials for those data, which include disaggregated product volume, weight, and revenue distribution information by price cell. The materials consist of spreadsheets that contain calculations to determine the weighted average price increase and cost coverage for each competitive product within the scope of this docket. The Postal Service hereby furnishes below the justification for this application as required by each subsection of 39 C.F.R. § 3011.201(b). For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials. The Postal Service is concurrently filing redacted versions of these files, where it has determined redactions to be practicable.

**(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.**

The materials designated as non-public consist of information of a commercial nature as well as third-party business information that, under good business practice, would not be disclosed to the public. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (b)(4).<sup>1</sup> Because the portions of the materials filed non-publicly

<sup>1</sup> In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury,

in this docket by the Postal Service fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

- (2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.<sup>2</sup>**

Other than the proprietary interest of the Postal Service in the information contained within the non-public materials that is described elsewhere in this filing, we are not aware of any third-party proprietary interests. Notice may be directed to Elizabeth A. Reed, Attorney, United States Postal Service, whose email address is Elizabeth.A.Reed@usps.gov and whose telephone number is 202-268-3179.

- (3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.**

such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

<sup>2</sup> Section 3011.201(b)(2) further states the following:

(i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the materials.

(ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

(iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

The redacted information consists of the projected FY 2026 attributable cost, contribution, and cost coverage for each competitive product that is the subject of this docket. The Postal Service has filed information concerning the calculations used to develop the weighted average price increase by product and cost coverage. Protected information in the spreadsheets includes volume and revenue by price cell (weight increment and zone), as well as product-specific cost data and other supporting data. Such information for competitive product categories is commercially sensitive at the disaggregated, cell-specific level shown in the spreadsheets.

**(4) Particular identification of the nature and extent of the harm alleged and the likelihood of each harm alleged to result from disclosure.**

If competitors of the Postal Service were to have access to this information, they would likely focus their marketing and price cutting efforts on the Postal Service's most profitable products. This will lead to erosion of contribution of these products through lost sales and/or the need to lower prices to compete. Postal product cost and contribution information would provide suppliers of postal transportation and other services with information they could use to seek higher rates for services they provide. This would lead to higher postal costs and loss of contribution. Although the extent of the commercial harm is difficult to quantify, given that Shipping Services is a multi-billion dollar enterprise, even a small change in market share, prices, or costs could lead to millions of dollars in lost revenue, higher costs, and lower contribution margins. It is highly likely that if this information were made public, the Postal Service's competitors and suppliers would take advantage of it almost immediately.

Competitors could use the product-specific revenue, pieces, and weight information to analyze the Postal Service's possible market strengths and weaknesses

and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Disclosure of this information would also undermine the Postal Service's position in negotiating favorable terms with potential customers, who would be able to ascertain critical information about relevant product trends (e.g., average revenue per piece, average weight per piece).

**(5) At least one specific hypothetical, illustrative example of each alleged harm.**

Identified harm: Competitors could use product cost, contribution, or cost coverage information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment.

Hypothetical: Cost, contribution and/or cost coverage information is released to the public and available to a competitor. The competitor assesses the profitability of certain services based on the data released. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service has substantial contribution, thereby hindering the Postal Service's ability to maintain these customers.

Identified harm: Competitors could use disaggregated product volume, weight, and revenue distribution information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment, and also during negotiations with the Postal Service.

Hypothetical: Disaggregated revenue, volume, and weights contained in the Nonpublic Annex are disclosed to the public. Another delivery service's employee monitors the filing of this information and passes it along to the firm's sales and

marketing functions. The competitor assesses the profitability of certain services on a per-piece or per-pound basis or the Postal Service's relative concentration in certain service offerings. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service appears to have made headway, hindering the Postal Service's ability to reach out effectively to these customers.

**(6) The extent of the protection from public disclosure alleged to be necessary.**

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the market for domestic parcel shipping products, as well as their consultants and attorneys. Additionally, suppliers of transportation or other services to the Postal Service that affect costs for competitive services should not have access to these materials; this restriction should include their consultants and attorneys.

**(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.**

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with third parties that may have a proprietary interest in protected materials often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

**(8) Any other relevant factors or reasons to support the application.**

None.

**Conclusion**

For the reasons discussed in this application, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
